

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	
EUT Housing and Board View 2	

Solder Board-Component View 1	 A photograph showing a small electronic component, likely a microcontroller or sensor module, mounted on a green printed circuit board (PCB). The component is positioned horizontally. To the left of the component is a vertical ruler with markings from 0 to 90. Below the component is a horizontal ruler with markings from 0 to 60 mm. The background is a blue textured surface.
Solder Board-Component View 2	 A photograph showing two small electronic components, similar to the one in View 1, mounted side-by-side on a green PCB. The components are oriented vertically. To the left is a vertical ruler with markings from 0 to 90. Below the components is a horizontal ruler with markings from 0 to 60 mm. The background is a blue textured surface.

Solder Board-Component View 3	 A photograph showing two small electronic components, one blue and one green, resting on a black surface. A ruler is placed vertically next to them for scale, with markings from 10 to 50 mm visible. The components are positioned horizontally, with the blue one slightly above the green one.
Antenna View	 A photograph of a small, black, rectangular component with rounded ends, lying on a blue textured surface. A red rectangular box highlights a specific area on the component. A red line extends from this box to a label "BT Antenna" located in the top left corner of the image area.
