1. General

1.1 Product Description

This microscope contains the RFID module „LID Module 1.0“.

It recognizes the used filter cubes in the fluoturret.

The different filter cubes are equipped with corresponding passive tags (Type D6.7 special).

During initialization phase of the turret, these tags are read by the LID Module 1.0.

The tags cannot be written or modified by the LID Module 1.0.

1.2 Specifications LID Module 1.0

Supply Voltage	5V
Dimensions	36 x 25 x 9.8 mm
RFID Protocol	ISO 15693
Transmit frequency	13,56 MHz
Operating temperature	-5°C to +65°C
Storage temperature	-20°C to +85°C
Communication interface	I ² C

1.3 Specifications RFID Tag D6.7 special

Modulation Scheme	Close coupling
Dimensions	D=6,7mm TH=2,6mm
RFID Protocol	ISO 15693
Transmit frequency	13,56 MHz
Read write type	2kbit EEPROM
Operating temperature	-15°C to +65°C
Storage temperature	-25°C to +125°C

LID Module 1.0

1.4 Ports

1. I2C Port

1.4 FCC / IC Compliance

Note:

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

! Notice:

This device complies with Part 15 of the FCC Rules [and with Industry Canada licence-exempt RSS standard(s)].

Operation is subject to the following two conditions:

- 1. this device may not cause harmful interference, and
- 2. this device must accept any interference received, including interference that may cause undesired operation.

! Notice:

Changes or modifications made to this equipment not expressly approved by Leica Microsystems CMS GmbH may void the FCC authorization to operate this equipment.

Hereby, Leica Microsystemms CMS GmbH declares that the radio equipment type LID Module 1.0 designation of type of radio equipment] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.leica-microsystems.....
