6 DOWNLOAD

Go to MainMenu->Download, click , find all record files, choose one, then click  to watch playback online, click  to download into your mobile/pad local memory, find records at MainMenu->Record

7 PRECAUTIONS

1. In order to enhance user experience, we regularly update APP and CAR DVR parts to provide more features and new ways, related information will be updated from time to time, instructions are for reference only.

2. If video delay, loss, disconnect or config unsuccessfully, the reason may be long distance between CAR DVR and mobile phone/pad so that WIFI signal is weak, so make sure your mobile phone/pad is close to CAR DVR

3. Press RESET button 8 seconds until the light is off, then power off/on to restart, at last it will restore the default configuration

4. If mobile phone/pad CPU is less than 1.5GHz, realtime video preview will be delayed (do not affect the local TF card record effects), please switch into sub stream mode or use high performance mobile phone/pad

5. Please use 5V/1.5A (or bigger power) adapter, if power adapter is lower than 5V/1.5A, then it will work abnormally

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This device and its antennas(s) must not be co-located or operating in conjunction with any other antenna or transmitter except in accordance with FCC multi-transmitter product procedures.
