

Antenna Specification

The antenna radiation pattern measurements are carried out in an anechoic chamber. Radiation patterns are presented for 3D; XZ planes with horizontal and vertical polarization of the receiving antenna.

Measurements are carried out for the module installed in the upper right corner on the reference board with no laminate below the antenna trace.

Radiation Pattern for Antenna Trace

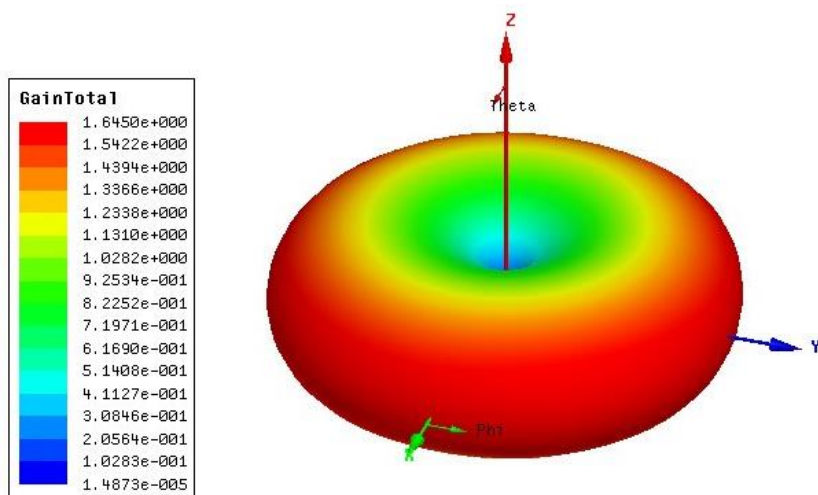

Figure1: 3D

Gain:2.0dBi

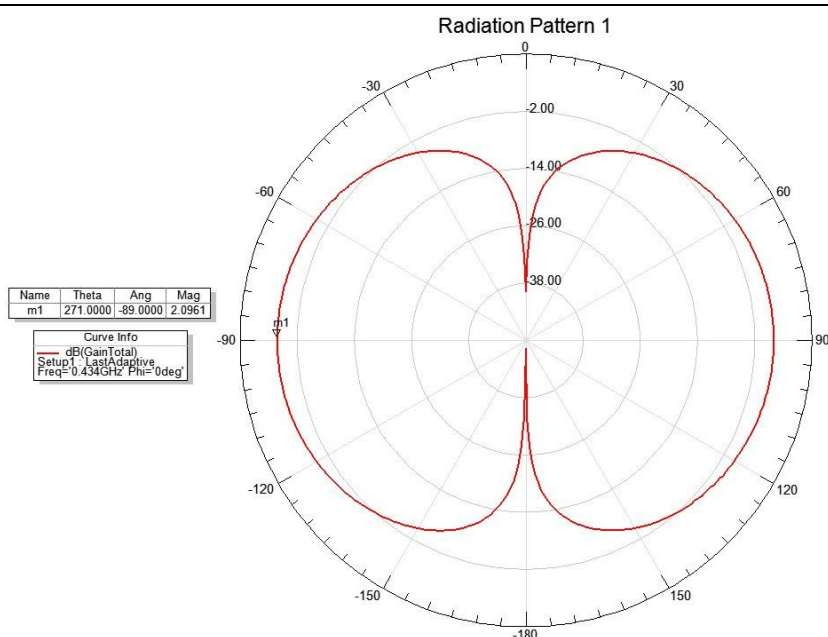

Figure2: Radiation Pattern for XZ-Plane, Horizontal Polarization

Model number	433MHz-ANT
Antenna Manufacturer' s name & address	
Company: DONGUANG POETMAN EIECTRONIC SCIENCE AND TECHNOLOGY CO,	Name: Wayne Ding
Add: NO,10,LUYI 2 ROAD ,TANGXIA TOWN,DONGGUAN CITY GUANGDONG PROVINCE	Email: dingjie@ptm.com.cn
