

QUICK STEP GUIDE

By Visionmed

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

CONTENU DE LA BOÎTE / CONTENTS

- | | |
|---|---|
| - 1 caméra MyiVision | - 1 MyiVision Camera |
| - 1 antenne WiFi | - 1 WiFi antenna |
| - 1 câble réseau | - 1 network cable |
| - 1 transformateur électrique | - 1 electrical transformer |
| - 1 système d'accroche par ventouse | - 1 hangs system by suction cup |
| - 2 coques interchangeables (blanc et noir) | - 2 exchangeable shells (white and black) |

1 INSTALLER / INSTALL

Branchez le câble fourni entre votre box internet et la caméra.

Branchez électriquement la caméra.

Visser l'antenne WiFi sur la caméra.

Connect network cable from camera to modem.

Connect power adapter to the camera.

Screw the WiFi antenna on the camera.
