SAFETY PRECAUTIONS

This section contains important information pertaining to the operating instructions of the Marshall London™ mobile phone (hereinafter referred to as "phone"). It also contains information about how to use your phone safely. Read this information carefully before using your phone.

You can find the complete user-manual and the full list of safety precautions for your phone and its accessories here: <http://www.marshallphones.com>. All references to use below also refers to charging your phone, whether or not your phone is on or off.

- Keep your phone and its accessories away from young children. Smaller accessories like the battery or charger can pose a choking hazard.
- Do not use your phone if the display is broken or cracked as this could cause injury.
- For medical implants patient (heart, insulin, etc.), keep your phone 15cm away from the implant and, while calling, keep your phone on the opposite side of the implant.
- Do switch off, and do not switch on or use, your phone when it is prohibited to use phones or when your phone or other wireless equipment may cause interference or danger.
- Do not attempt to disassemble your phone, including its battery, or its accessories. Only qualified personnel are allowed to service or repair your phone, its battery or its accessories.
- The phone, battery and charger are not water-resistant. Keep them dry. Protect your phone, battery, and charger from water or vapour.

PREVENTION OF HEARING DAMAGE

Using headsets or headphones at high volume can cause hearing damages. To reduce the risk of damage to hearing, lower the headsets or headphones volume to a safe and comfortable level. Follow these recommendations when using any portable audio device:

- Always turn the volume down before plugging the headsets or headphones into your phone.
- Set the volume in a quiet environment and select the lowest volume at which you can hear adequately.
- When using headsets or headphones, turn the volume down if the sound from people speaking cannot be heard over the sound from the headsets or headphones, or if people around you can hear the sound from the headsets or headphones
- Limit the amount of time listening with headsets or headphones. As the volume increases, less time is required before your hearing could be affected.
- Do not listen at any volume that causes discomfort. If experiencing ringing in your ears, hearing muffled speech, or any temporary hearing difficulty, please discontinue use and consult a doctor.
- This Warning statement is a requirement under EN 60950-1:A2.
- **Note:** For France, headsets/headphones for this phone are compliant with the sound pressure level requirement laid down in the applicable EN 50332-1: 2000 and/or EN50332-2: 2003 standard as required by French Article L.5232-1.

BATTERY AND CHARGER

Choose only batteries, chargers, and accessories approved for use with this model by Zound Industries.

- Unplug the charger from the electrical plug and your phone when not in use.
- Use the AC power supply defined in the specifications of the charger. An improper power voltage may cause a fire or a malfunction of the charger.
- Upon connection of the two poles of the battery, the battery may be short-circuited and may cause injuries, burns and other damages to people or property.
- Do not disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery. This can cause leakage or an internal short-circuit, resulting in overheating.
- If battery electrolyte leaks out, ensure that the electrolyte does not touch the skin and eyes. When the electrolyte touches the skin or splashes into the eyes, wash the eyes with clean water immediately and consult a doctor.
- If there is a case of battery deformation, colour change, or abnormal heating while charging or storing the battery, remove the battery immediately and stop using it. Otherwise, it may lead to battery leakage, overheating, explosion, or fire.
- If the power cable or charger is damaged (for example, the cord is exposed or broken), or the plug loosens, stop using the cable and/or charger at once. Otherwise, it may lead to an electric shock, a short circuit of the charger, or a fire.
- Do not dispose of batteries in fire as they may explode. Batteries may also explode if damaged.
- Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, expose to fire, explosion or other hazard. Do not touch the charger with wet hands or expose it to water. Otherwise, it may lead to a short circuit and an electric shock to the user.
- Improper battery use may result in a fire, explosion or other hazard.
- Your phone should only be connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.
- Output rating of charger DC 5V 1A.
- Charger dimensions [mm] in EU: 79,5 x 38.2 x 20, UK: 50.2 x 42 x 39.9, US: 58.2 x 38.2 x 20.

CAUTION – RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

For more safety information specific to your region, please visit the website:
<http://www.marshallphones.com>

EMERGENCY CALL

- Your phone can be used for emergency calls in the service area. The connection, however, cannot be guaranteed in all conditions. The user should not rely solely on your phone for essential communications.

CLEANING & MAINTENANCE

- The battery and charger are not water-resistant.
- Do not use any chemical detergent, powder, or other chemical agents (such as alcohol and benzene) to clean your phone or accessories. Otherwise, parts of your phone or accessories may be damaged or a fire can be caused.

For more detailed cleaning and maintenance instructions, please visit the website:
<http://www.marshallphones.com>

FCC STATEMENT

- This phone complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - o This phone may not cause harmful interference, and
 - o This phone must accept any interference received, including interference that may cause undesired operation.

For more information related to the FCC Rules, please visit the website:
<http://www.marshallphones.com>

RF EXPOSURE INFORMATION (SAR)

- This phone meets the government's requirements for exposure to radio waves.
- This phone is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.
- For body worn operation, this phone has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and positions the handset a minimum of 1 cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

For more RF exposure information, please visit the website: <http://www.marshallphones.com>
