FEDERAL COMMUNICATIONS COMMISSIONS

Authorization and Evaluation Division

7435 Oakland Mills Road

Columbia, MD 21046

Subject: Description of Permissive Change

Dear Sir/Madam,

We, Ring LLC, hereby authorize Bay Area Compliance laboratory Corp to act as a laboratory for testing and test report generation for the following project(s):

FCC ID: 2AEUP-7AFYA9

This project is a Permissive Change II submission for the purpose of evaluating hardware modifications to a previously certified device, including changes to the LoRa transmitter (removal of R23 and FL1), replacement of Johanson matching capacitors with Murata components with no value changes, and addition of decoupling and shunt components on the 5V and 1.8V SPI nets. The changes will not result in different radio parameters (e.g., output power, frequency).

We affirm that between BACL and Ring LLC, any difference in understanding, including test plan, measurement methods, applicable standards and relevant procedures and processes have been resolved prior to commencement of testing activities.

This authorization is valid until further written notice from the applicant.

Sincerely Yours,

Signed by:

Jason Mitura
