

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

THEFT PROTECTION

If your Ring camera or doorbell product is stolen at any time after your purchase, Ring will replace the stolen device at no charge to you. This theft protection is not transferable and applies only to the original consumer purchaser. Coverage of this theft protection is limited to one (1) replacement only for each Ring camera or doorbell product that you have purchased. Theft protection does not apply to any products purchased from third party sellers on eBay and other online marketplaces. Any claim based on theft of your Ring camera or doorbell product must be submitted within fifteen (15) days of the theft and include the original sales receipt, and a copy of a police report evidencing that you reported the theft to the police. Failure to report the theft to police voids this theft protection.

SAFETY INFORMATION: FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY OR DAMAGE.

WATCH FOR SMALL PARTS. The device and accessories may present a choking hazard to small children and pets. Keep them out of reach of small children and pets.

WARNING: Electrical shock hazard. Disconnect power to installation area at your circuit breaker or fuse box before beginning installation. Always use caution when handling electrical wiring. Installation by a qualified electrician may be required in your area. Refer to your local laws and building codes before performing electrical work; permits and/or professional installation may be required by law.

FIRE RISK: Do not mount near combustible or flammable surfaces.

Your device is water resistant and is suitable for outdoor use. However, your device is not intended for underwater use. To protect against electric shock, do not intentionally submerge or immerse your device in water or expose your device to other liquids. Do not spill any food or beverages on your device. Do not attempt to clean or polish your device with or expose your device to oil, lotion, or other abrasive substances. Do not expose your device to salt water or other conductive liquids. Do not expose your device to pressurized water, high velocity water, or extremely humid conditions (such as a steam room). Do not attempt to dry your device with an external heat source, such as a microwave oven or a hair dryer. To avoid risk of electric shock, do not touch your device or any wires connected to your device during a lightning storm while your device is powered. If your device appears to be damaged, discontinue use immediately.

Do not install on the ground. Your device should be installed outdoors to a wall or eave. To reduce the risk of fall, take extra caution when using a ladder or similar equipment to mount your device. Do not cover the device while operating. Do not open the housing. Your device does not contain serviceable parts or replaceable LEDs. Protect this device from sunlight. Disconnecting the wires will power the device off. Do not use the device if the wires or housing are defective, there is a risk of electric shock. Do not cut any wires with factory installed wire connectors or remove the wire connectors. Do not install on circuits feeding motor loads such as kitchen appliances, HVAC equipment, washer/ dryer or garage door openers. Do not install when it is raining. Do not stare directly at the LEDs for more than a few seconds to avoid eye injury.

Only use accessories that are recommended by the manufacturer. Use of third-party accessories may lead to damage to your device or the accessory and may cause fire, electric shock, or injury.

SAFELY CONNECTING YOUR RING FLOODLIGHT CAM WIRED PLUS TO YOUR HOME'S ELECTRICAL WIRING

You must turn off the power source to the electrical box at your home's circuit breaker or fuse and test that the power is off BEFORE removing an existing floodlight or light fixture, installing the device, or touching electrical wires. Failure to turn off circuit breaker or fuse could result in FIRE, ELECTRIC SHOCK, or OTHER INJURY or DAMAGE.

More than one disconnect switch may be required to turn off the equipment before servicing.

If the electrical wiring in your home does not resemble any of the diagrams or instructions provided with the device, if you encounter damaged or unsafe wiring, or if you are unsure or uncomfortable in performing this installation or handling electrical wiring, please consult a qualified electrician in your area.

Verify that the supply voltage is correct. Connect fixture to a 100 VAC~240 VAC 50/60 Hz power source. Properly ground fixture. Always install wiring connections in accordance with local code standards.

Product Specifications

Device Name: Ring Floodlight Cam Wired Plus

Model Number: 5AT3T2

Electrical Rating: Hardwired (110 to 240V)

Temperature Rating: -5°F to 120°F (-20.5°C to 48.5°C)

RECYCLING YOUR DEVICE PROPERLY

In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of, or recycle, your device in accordance with your local laws and regulations. For information about recycling your device, go to amazon.com/devicesupport.

Terms of Service and Warranty

Use of the product is subject to your registration with Ring and your agreement with the Terms of Service found at ring.com/terms

To review your warranty coverage, please refer to the enclosure inside this box or visit ring.com/warranty

For Consumers in the USA

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Pursuant to Section 15.21 of the FCC rules, changes or modifications to a Product by the user that are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device meets the FCC Radio Frequency Emission Guidelines. Information on the product is on file with the FCC and can be found by inputting such Product's FCC ID (which can be found on the device) into the FCC ID Search form available at fcc.gov/oet/ea/fccid.

The party responsible for FCC compliance is:
Ring LLC, 1523 26th St. Santa Monica, CA USA, 90404
