## 2. Charging the headset

When the headset is low power, the headset emits once every 5 minutes and the red LED flashes. Please recharge the battery of the headset.

The way of charging as following:

### Using USB cable

1. Plug USB charging cable into the USB port of computer
2. Plug another side of USB cable to the headset

Red light on: Charging

Red light off: Finish charging

3. It will takes about 3 hours to finish charging

### Remarks:

- 1) The battery is recyclable.
- 2) Batteries (battery pack or batteries installed) shall not be exposed to excessive heat place, such as sunshine, fire or the like.

## ■ Getting started

### 1. Turning on/off the headset

| Functions   | Operation                      | LED indicator                 | Prompt tone    |
|-------------|--------------------------------|-------------------------------|----------------|
| Turning on  | Toggle the slide switch to ON  | Blue Led flashes for 1 second | Four rise tone |
| Turning off | Toggle the slide switch to OFF | Red Led flashes for 1 second  | Four fall tone |

**Remark:** In order to save power, the headset will turn off automatically if no devices can be connected after 5 minutes.

### 2. Pairing the headset with Bluetooth devices

#### 1) How to enter pairing mode

| Functions          | Operation                                                                                                                                                | LED indicator                        | Prompt tone   |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|---------------|
| Enter pairing mode | Ensure the headset is on, and then press and hold  button for 5 seconds | Red and blue Led flashes alternately | Two rise tone |

**Remark:**

Pairing mode will last 2 minutes. If no devices can be connected after 2 minutes, it will return to standby mode automatically.

In standby mode(not connected and connected), long press  button to enter pairing mode.

## **2) Pairing the headset with a Bluetooth cell phone via Bluetooth**

Prior to using the headset for the first time, you have to pair it with a Bluetooth-enabled cell phone. The pairing procedures are subject to different models of cell phones. Please refer to your cell phone user's manual for further information. The general pairing procedures are as follows:

- 1) Keep your headset and phone within 1 meter when pairing;
- 2) Press MFB button for 6 seconds and release it until red LED and blue LED flashes alternately. Then your cell phone enter pairing mode.
- 3) Activate your cell phone's Bluetooth function and set your cell phone to search for Bluetooth devices within range, and select "Kinivo Urbn" from the list of devices shown; After successful connecting, the headset emits one short tone and blue LED flashes twice every 4 seconds.

### **Remarks:**

- ◆ According to the indication, enter password PIN No: "0000"
- ◆ After pairing is successful, the headset and the cell phone will remember each other, they will no need to re-pair next time. The headset will automatically connect the last device after turn on again.
- ◆ Every time the headset is turned on, not connected, press  button , it will connect to last connected device automatically.
- ◆ If the headset and the device out of the effective range and not connected, it will automatically connect after back to effective range in 10 minutes. If out of time, short press  button to connect.

## **3) Pairing headset with a Bluetooth cell phone via NFC**

If your cell phone support NFC function. Please active the NFC function and turn on the headset. Use the NFC zone of cell phone to touch the NFC zone of Kinivo Urbn , the headset will connect with cell phone.

### **Remarks:**

- ◆ When the cell phone is in sleep or lock screen status, you can't active NFC function to connect.
- ◆ Prior to pairing the headset for the first time, you need use your cell phone to touch the NFC area until enter pairing mode.
- ◆ When active the NFC function, try to make the cell phone and the headset keep touch for longer. Otherwise it may fail to pair.
- ◆ When the headset is disconnect (in standby mode), you can active NFC function to fast connect. If the headset has connect, use your cell phone to touch NFC zone, it will disconnect automatically.

#### **4) Pairing the headset with a Bluetooth transmitter via Bluetooth**

You can connect the headset to a Bluetooth transmitter to enjoy music wirelessly. Hereby take BTT005 (Bluetooth transmitter, not included in accessories) for example. The pairing steps are as follows:

- 1) Keep your headset and transmitter within 1 meter when pairing;
- 2) Make the headset enter pairing mode (Please refer to “How to enter pairing mode”);
- 3) Turn on the Bluetooth transmitter and make it enter pairing mode. It will search for Bluetooth devices automatically and send a pairing request;
- 4) When the headset requests to enter a PIN No., the transmitter will response “0000” automatically;
- 5) After successful pairing and connecting, blue LED of the headset flashes twice every 4 seconds.

#### **Remarks:**

- ◆ The pairing password of Kinivo Urbn is “0000”. So, the headset can only pair with a Bluetooth transmitter whose pairing password is “0000”.
- ◆ If pairing still fails after several tries, please refer to the Bluetooth transmitter’s user’s manual for further information.

### 5) Pairing headsets with Multi-devices via Bluetooth

The headset can connect with two Bluetooth devices at most. If you want to finish the multi-pairing, please refer to the following steps:

- 1) Firstly, pair and connect the headset with Bluetooth device one (refer to “pairing the headset with a Bluetooth cell phone);
- 2) Long press  button and make it enter pairing mode again, pair and connect with Bluetooth device two (refer to “pairing the headset with a Bluetooth cell phone);
- 3) Operate Bluetooth device one to connect with headset. The headset has already connected with Bluetooth device one and two, the headset also can connect with these two devices automatically after turn on next time.

### Remarks:

- ◆ The steps of turn on/off the multi-pair function as follows:  
**Turn off multi-pair function:** the headset in standby mode, not connect with device, press MFB and volume down button for 4 seconds simultaneously and release it until hear a prompt tone.  
**Turn on multi-pair function:** the headset in standby mode, not connect with device, press MFB and volume up button for 4 seconds simultaneously and release it until hear a prompt tone.
- ◆ To improve the stabilization of headset, we suggest you turn off the multi-pair function when you only connect with one cell phone.

### 3. Battery display

When the headset connected with IOS device, it will display the battery of the headset on the device. When the headset is in low battery, power symbol show red, it emits you to charge for your headset.

#### 4. Making a call with the headset

##### 1) Basic operation

| Functions     | Status of headset | Operation                                                                                                 |
|---------------|-------------------|-----------------------------------------------------------------------------------------------------------|
| Cancel a call | Calling           | Short press  button once |
| Answer a call | Incoming ringing  | Short press  button once |

|                                       |                  |                                                                                                                     |
|---------------------------------------|------------------|---------------------------------------------------------------------------------------------------------------------|
| Reject a call                         | Incoming ringing | Long press  button for 2 seconds   |
| End a call                            | During a call    | Short press  button once           |
| Volume up                             | During a call    | Short or long press  button once   |
| Volume down                           | During a call    | Short or long press  button once   |
| Transfer conversation to mobile phone | During a call    | Long press  button for 2 seconds  |
| Transfer conversation to headset      | During a call    | Long press  button for 2 seconds |

|                 |                                 |                                                                                                                   |
|-----------------|---------------------------------|-------------------------------------------------------------------------------------------------------------------|
| Microphone mute | During a call                   | Long press  button for 2 seconds |
| Cancel mute     | During a call (microphone mute) | Long press  button for 2 seconds |
| Voice dial      | Standby mode (connected device) | Double click  button             |

## 2) Three-ways call operation

| Functions                               | Status of headsets             | Operation                                                                                                 |
|-----------------------------------------|--------------------------------|-----------------------------------------------------------------------------------------------------------|
| Answer new call and end current call    | There are second incoming call | Short press  button once |
| Answer new call and retain current call | There are second incoming call | Double click  button     |
| Switch calls                            | Keep conversation              | Double click  button     |
| End current call and switch retain call | Keep conversation              | Short press  button once |

**Warning:** Excessive pressure from earphones and headphones can cause hearing loss.

### Note:

- ◆ Not all the mobile phones support all the functions listed above. Please refer to your mobile phone user's manual.
- ◆ Different function and prompt tone according to different mobile phone.
- ◆ When the volume is adjusted to max or min, you will hear one prompt tone. When the microphone is mute, it will emit two "du" every 10 seconds.
- ◆ When pressing the answer button on some mobile phones, the call will be transferred to the mobile phone, like iPhone. You can switch the call to the headset by using the conversation switch button or through operating on the mobile phone.

### 3) Connecting with two cell phones to make a call

| Functions                                     | Status of headset                               | Operation                                                                                                 |
|-----------------------------------------------|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
| End phone call #1 and answer phone call #2    | During phone call #1, phone 2 has incoming call | Short press  button once |
| Retain phone call #1 and answer phone call #2 | During phone call #1, phone 2 has incoming call | Double click  button     |
| Switch call                                   | During call, one of phone call is retained      | Double click  button     |
| End current call, back to retain phone call   | During call, one of phone call is retained      | Short press  button once |

## 5. Playing music

### 1) Bluetooth audio mode

When the headset connects to a mobile phone or Bluetooth transmitter which supports A2DP, you can enjoy music wirelessly through the headset.

| Functions       | Status of headset               | Operation                                                                                                                              |
|-----------------|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Volume up       | Playing music                   | Short press, long press or press  button continuously |
| Volume down     | Playing music                   | Short press, long press or press  button continuously |
| Last track      | Playing music                   | Short press  button once                              |
| Next track      | Playing music                   | Short press  button once                              |
| Microphone mute | During a call                   | Long press  button for 2 seconds                      |
| Cancel mute     | During a call (microphone mute) | Long press  button for 2 seconds                    |
| Voice dial      | Standby mode (connected device) | Double click  button                                |
| Pause           | Playing music                   | Short press  button once                            |
| Play            | Pausing                         | Short press  button once                            |

**Notes:**

- ◆ When the volume is adjusted to max or min., you will hear one prompt tone.
- ◆ If you want to remote control last/next song, pause/play, it needs your Bluetooth mobile phone or Bluetooth transmitter paired with the headset to support AVRCP profile, please refer to the user's manual of your mobile phone or Bluetooth transmitter for further information.

**2) Aux in audio mode**

The headset support Aux in audio mode, as shown below, in standby mode, use a 3.5 to 3.5 audio line to connect the headset and media player. Then you can enjoy music by wire.

**Remark:**

When plug in 3.5 audio line, the headset will turn off and Bluetooth will disconnect automatically, Aux in audio connect is effective

If you want to active Bluetooth function, please pull out 3.5 audio line, and then turn on the headset to connect.

### 3) USB audio mode

You can enjoy music in computer. The headset can connect to computer by USB connect

### 6. LED indicator

| LED indicator                                  | Status of headset             |
|------------------------------------------------|-------------------------------|
| Red and blue LED flashes alternately           | Pairing mode                  |
| Blue LED flashes once quickly every 2 seconds  | Not connect device            |
| Blue LED flashes twice quickly every 4 seconds | Have already connected device |
| Red LED flashes instead of blue LED            | Low battery                   |

### 7. Factory Reset

In standby mode, long press volum up and volum down button for 8 seconds and release it until the red and blue LED on simultaneously.

#### Remarks:

- ◆ After factory reset, the paired list of headset will be deleted. When you turn on the headset again, it will enter paired mode automatically, but it won't connect with device automatically, you should re-pair and connect with devices.
- ◆ In standby mode, you can delete the paired list.

## ■ Care and maintenance

Read the following recommendations carefully before using Kinivo Urbn. Following these you will be able to enjoy this product for many years.

- ◆ Keep it dry and don't put it in the dump place to avoid the product's internal circuit being affected.
- ◆ Keep the product away from direct sunlight or hot places. High temperatures will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.
- ◆ Don't use this product during sport to avoid the sweat into product so that damage the product. This product is not water-resistant.
- ◆ Don't expose the product to cold areas. It may damage the internal circuit board.
- ◆ Don't try to disassemble the product as it may get damaged if you are not professional.
- ◆ Don't let it fall down onto the floor or other hard surfaces. The internal circuit might get damaged.
- ◆ Don't use intensive chemical products or detergent to clean the product.
- ◆ Don't scratch the surface with sharp things.

In case the product doesn't function properly, send it to the store you bought it. The staff will help you to solve the problem

## ■ FAQs

### 1. What does it mean if all the LED indicator turns red?

Battery is low power, need to be recharged.

### 2. Why is the red LED off when charging?

- a) Please make sure the charging device connect with headset Well;
- b) You didn't use the headset for a long time, the battery may dry up. At this time, you have to charge the battery for 30 minutes, and then the red LED will be ON.

### 3. How far is the effective range between the headset and mobile phone?

According to the Bluetooth standard, the max available range of Class II headset is 10 meters. It varies under different environment.

#### **4. Why my mobile phone can not search and find the headset?**

The mobile phone will not find the headset if headset and mobile phone are not under the pairing mode. Make sure the headset is under the pairing mode and in the effective working range, and then the headset can be paired and connected.

#### **5. Why the headset can not hear the voice?**

- a) Make sure the headset has been switched on;
- b) Make sure the volume is not too low or muted;
- c) Make sure the headset connects with the mobile phone correctly;
- d) Make sure the distance between the headset and the cell phone is in the available Bluetooth range.

#### **6. Why the headset can not hear the voice clearly in conversation?**

- a) Make sure the mobile phone is in the strong signal area;
- b) Make sure the headset is in the available range of this product.

#### **7. Why can't control pause, play, last song and next song when playing music?**

This function needs your Bluetooth device supports AVRCP (Audio/Video Remote Control profile)
