Quick Start Guide

SPECIFICATIONS

Bluetooth Version:	Bluetooth V 4.0
Effective transmission range:	10 m
Battery:	250mAh Li-Polymer battery
Charging time:	<2.5 hours
Playing time:	>12 hours
Standby time:	>30 days
LED status:	Blue LED for power and BT status Red LED for charging status
Diameter of driver unit:	40 mm
Frequency range:	20 Hz ~ 20 kHz
Sensitivity @1KHz	95 +/-3 dB
Impedance:	32 +/-15 % Ω
Distortion:	≤1 % bei 1 KHz
Rated power input:	10 mW
Net weight:	Approx. 126 g
FCC ID:	2AEXIY8

ACCESSORIES

USB to 3.5mm charging cable
3.5mm audio cable
Instrustion Manual

Important Safety Information

Listen Responsibly

To avoid hearing damage, make sure that the volume on your music player is turned down before connecting your headphones. After placing headphones in/on your ears, gradually turn up the volume until you reach a comfortable listening level. Noise levels are measured in decibels (dB), exposure to any noise at or above 85 dB can cause gradual hearing loss. Monitor your use; hearing loss is a function of loudness versus time. The louder it is, the less time you can be exposed to it. The softer it is, the more time you can listen to it

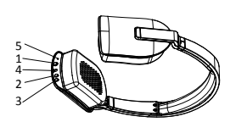
Use Responsibly

Do not use headphones when it's unsafe to do so—while operating a vehicle, crossing streets, or during any activity or in an environment where your full attention to your surroundings is required

It's dangerous to drive while wearing headphones, and in many places, illegal because it decreases your chances of hearing life-saving sounds outside of your vehicle, such as another car's horn and emergency vehicle sirens. Please avoid wearing your headphones while driving

CHARGING THE HEADPHONES

Use the USB to 3.5mm charging cable and connect headphones to you computer or adaptor device made for USB charging. A red LED indicator will turn on when the headphone are charging and A blue LED indicator will turn on when the headphone are fully charged.



1. On / Off / Call / Play / Pause

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
