FCC Class II Permissive Change Request Letter

Date: 13 July 2016

To: Federal Communications Commission
7435 Oakland Mills Road, Columbia, MD

RE: FCC Permissive II Change Request for Company: SAM JIN CO., LTD
FCC ID: 2AF4S-STS-WTR-250

We are submitting an application for a class II permissive change to the FCC approval of the Company name: SAM JIN CO., LTD, product description: Water Leak Sensor (FCC: 2AF4S-STS-WTR-250, Original Grant Date: 11 March 2016).

When proceeding Korea KC and EU R&TTE approval, to have better margin on spurious requirement, we have re-artworked PCB pattern.

Schematics and parts are same as before, we re-designed PCB pattern only.
It affects on the Zigbee indirectly.

According to section 2.1043, we hereby proceed permissive change.

If you have any question, feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "SangSoo Kim", written over a horizontal line.

NAME : SangSoo Kim
