

MTRLC LLC

275 Turnpike Street Suite 101 Canton, MA 02021

Federal Communications Commission
Authorization and Evaluation Division

We, MTRLC LLC, states that our device under **FCC ID: 2AF5PQ11** complies with device protocol requirements and operational restrictions for Indoor Access Point Device.

- a) This indoor access point to control associated client/subordinate device, allowing it to transmit without receiving an enabling signal. This mode can select a channel and initiate a network by sending enabling signals to client devices and subordinate devices.
- b) This Indoor Access Point operates in the 5.850-5895 GHz band. It is supplied power from a wired connection, has an integrated antenna, is not battery-powered, and does not have a weatherized enclosure.
- c) We acknowledge this device is subject to and in full compliance with the device restrictions listed below. All users are notified of these restrictions through the user manual.
 - i. Access Point operating in the 5.850-5.895 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery powered, and does not have a weatherized enclosure.
 - ii. A statement in a conspicuous location on the device and the user's manual: "FCC regulations restrict the operation of this device to indoor use only."& Section 15.19 Statement (if not on the device).

If you should have any questions regarding this declaration, please do not hesitate to contact us, thank you!

Sincerely yours,
