Request for Confidential Treatment for FCC ID: 2AF77- H2111705

Dear Sir,

We, Immedia Semiconductor LLC. Fka Immedia Semiconductor Inc. respectfully request the following:

Short-Term Confidentiality

We request 180 days of confidential treatment (from the date of grant of the equipment authorization for FCC ID No. 2AF77- H2111705), for the following confidential materials contained in our application:

- Product Information Documents (QSG, Manuals, Legal statements)
- Test setup photos
- Internal photos
- External photos

These materials contain proprietary information about our device that is not publicly available, and we only share this information with third parties who are committed to maintaining the confidentiality of such information. Disclosure of this information prior to our marketing of our device would be detrimental to our business and impair our ability to successfully launch the device.

Long-Term Confidentiality

We request indefinite confidential treatment for the following confidential materials contained in our application:

- Antenna Specifications
- Schematics
- Circuit Description, including Block diagram
- Operation description
- Parts and BOM

These materials contain sensitive technical and design information about our device that we would only share on a need-to-know basis, subject to confidentiality agreements, even after we begin marketing and selling the device. If this information is disclosed, our competitors would gain an unfair commercial advantage over us by learning about our product design and development processes. This in turn would significantly harm our ability to compete in a highly competitive market space.

Please let me know if you have any questions or concerns. Thank you in advance for your time and support of our request.

Sincerely,

P. Douglas Grearson
HW Development Manager
