## Modular Approval Letter

2015-12-15

The Device, FCC ID: 2AF9F-HELLA1337, is seeking FCC authorization as a modular transmitter. The EUT meets the requirement for modular approval as detailed in FCC Public Notice DA 00-1407.

Compliance to each of the requirements is described below:

1. The modular itself is unshielded. The shielding requirements are met by the host in which module configured.
2. The modular transmitter must have buffered modulation/data inputs
3. The modular transmitter must have its own power supply regulator
4. The modular transmitter must comply with the antenna requirement of section 15.203 and 15.204(c)
5. The modular transmitter must be tested in a stand-alone configuration => Power will be supplied via a test fixture with the device fully exposed. The control for the device is available via a 9-pin serial connector on the test fixture.
6. The modular transmitter must be labeled with its own FCC ID number
7. The modular transmitter must comply with any specific rule or operating requirements and the manufacturer must provide adequate instruction along with the module to explain any such requirements
8. The modular transmitter must comply with any applicable RF exposure requirements

Sincerely,

A handwritten signature in black ink, appearing to read "Dave Rauchwerk", written in a cursive style.
