

TEST SETUP PHOTOGRAPHS & EUT PHOTOGRAPHS

Test Setup Photographs

LEFT- CHEEK TOUCH

LEFT-TILT 15°

RIGHT- CHEEK TOUCH

RIGHT-TILT 15°

Body Back 0mm

Body Front 0mm

Edge 1(Top)

Edge 2(Right)

Edge 3(Bottom)

Edge 4(Left)

DEPTH OF THE LIQUID IN THE PHANTOM—ZOOM IN

Note : The position used in the measurement were according to IEEE 1528-2013

850MHz head  A photograph showing a ruler placed vertically inside a white phantom head. The ruler is marked in centimeters from 3 to 20. A red arrow points to the 15 cm mark, which is at the surface of the yellow liquid.	850MHz body  A photograph showing a ruler placed vertically inside a white phantom body. The ruler is marked in centimeters from 18 to 22. A red arrow points to the 19 cm mark, which is at the surface of the yellow liquid.
1750MHz head  A photograph showing a ruler placed vertically inside a white phantom head. The ruler is marked in centimeters from 3 to 20. A red arrow points to the 15 cm mark, which is at the surface of the clear liquid.	1750MHz body  A photograph showing a ruler placed vertically inside a white phantom body. The ruler is marked in centimeters from 17 to 23. A red arrow points to the 19 cm mark, which is at the surface of the clear liquid.
1900MHz head  A photograph showing a ruler placed vertically inside a white phantom head. The ruler is marked in centimeters from 3 to 20. A red arrow points to the 15 cm mark, which is at the surface of the clear liquid.	1900MHz body  A photograph showing a ruler placed vertically inside a white phantom body. The ruler is marked in centimeters from 17 to 22. A red arrow points to the 19 cm mark, which is at the surface of the yellow liquid.

2450MHz head  A photograph showing the head of a white, curved object being measured with a vertical ruler. A red arrow points to the measurement point on the ruler, which is approximately at the 15 cm mark.	2450MHz body  A photograph showing the body of a white, curved object being measured with a vertical ruler. A red arrow points to the measurement point on the ruler, which is approximately at the 18 cm mark.
2600MHz head  A photograph showing the head of a white, curved object being measured with a vertical ruler. A red arrow points to the measurement point on the ruler, which is approximately at the 15 cm mark.	2600MHz body  A photograph showing the body of a white, curved object being measured with a vertical ruler. A red arrow points to the measurement point on the ruler, which is approximately at the 18 cm mark.
