Disposal instructions for used products:

The product is designed and manufactured with high quality materials and components that are recyclable.

This symbol on the product indicates that it is protected under the Directive 2012/19/EU.

FCC Warning

The device meets provisions of part 15 of FCC rule. Operation meets the following 2 conditions:

(1) The device will not cause harmful interference, and
(2) The device must accept any interference received, including interference that may result in accidental operations. User manual or operating instructions shall remind users that intentional or unintentional modification and replacement of radiators without explicit approval from the responsible compliance party may prevent the user from operating the device. If the manual is provided in a form other than paper, such as, provided in computer disk through the Internet, then the information required in the section can be included in the manual in the alternative form under the premise that users can have access to the form information.

Note:
The device has been tested to meet restrictions of part 15 of FCC rule on B-class digital device. These restrictions are aimed at providing the effective prevention of harmful interference in a residential installation. If installation and use are not made according to the instructions, the device will generate and radiate radio frequency energy, and may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If the device does cause harmful interference to radio or television reception (determined by stopping and starting the device), it is suggested that users should attempt to correct the interference by one or more of the following measures:

— Reposition direction of receiving antenna.
— Increase the distance between the device and the receiver.
— Connect the device into an outlet on a circuit different from that to which the receiver is connected.
— Consult distributors or experienced radio/television technicians to seek help.

ISED Warning

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development (ISED) Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

RG2

LASER 1 — CONSUMER LASER PRODUCT EN 50689:2021

IEC 60825-1:2014

* Only use attachments/accessories specified or provided by the manufacturer.
* Beware that this product may emit harmful light radiation.

Declaration of Conformity

XGIMI Technology Co., Ltd. hereby declares that the radio equipment type WM18P is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:
https://global.xgimi.com/pages/product-support
This product is allowed to be used in some of EU member states. For example, the device can be used in the following Member States:

BE	HR	AT
BG	IT	PL
CZ	CY	PT
DK	LV	RO
DE	LT	SI
EE	LU	SK
IE	HU	FI
EL	MT	SE
ES	NL	UK
FR		

Operations in the 5.15-5.35 GHz band are restricted to indoor usage only.
This Frequency applies to the following Member States or the geographical area within a Member State where restrictions on putting into service or requirements for authorisation of use exist.
The appliance coupler is used as disconnect device, the disconnect device shall remain readily operable.

Radiation Exposure Statement

For remote control, this device complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment.
The transmitter shall not be placed or operated in conjunction with any other antenna or transmitter.
For the laser projector, the device meets FCC and IC radiation exposure limits specified for uncontrolled environments. In the installation and operation of the device, the distance between radiator and body should be at least 20 cm.

Notes:
5150-5250 MHz frequency range is only for indoor use.
This Frequency applies to the following Member States or the geographical area within a Member State where restrictions on putting into service or requirements for authorisation of use exist.

Wireless Specification

- Bluetooth transmitter frequency range: 2402 MHz -2480 MHz
- Bluetooth transmitter power: ‹10 dBm(EIRP)
- Wi-Fi network: IEEE 802.11 a/b/g/n/ac/ax(2.4GHz/5GHz)
- 2.4G Wi-Fi transmitter frequency range: 2412 - 2472 MHz
- 2.4G Wi-Fi transmitter power: ‹20 dBm (EIRP)
- 5G Wi-Fi transmitter frequency range: 5.15-5.35GHz,5.470-5.725GHz,5.725-5.850GHz
- 5G Wi-Fi transmitter power: 5.15-5.25GHz‹23dBm(EIRP),5.25-5.35GHz ‹20dBm (EIRP)5.470-5.725GHz‹20dBm (EIRP), 5.725-5.825GHz‹13.98dBm(EIRP)
- This product 24G millimeter-wave radar operates in the frequency range of 24.00GHz-24.25GHz and has a maximum transmit power of 100mW(EIRP).

Note: This power is for EU only.

WARNING

Please refer the information on exterior bottom enclosure for electrical and safety information before installing or operating the apparatus.
The apparatus should be connected to a mains socket outlet with a protective earthing connection.
The mains plug or appliance coupler is used as disconnect device. The socket-outlet shall be installed near the equipment and shall be easily accessible.

1. Do not open to avoid the risk of electric shock.
2. All of internal check, please contact authorized customer service center.
3. Possibly hazardous optical radiation emitted from this product. Do not stare at operating beam. May be harmful to the eye.

As with any bright source, do not stare into the direct beam, RG2 IEC 62471-5:2015

Complies with 21 CFR 1040.10 and 1040.11 except for conformance as a Risk Group 2 LIP as defined in IEC 62471-5:Ed. 1.0. For more information see Laser Notice No. 57, dated May 8, 2019.
The Maximum Output Of Laser Radiation: 0.39mw
wavelength: 449-461nm, 635-647nm

CE Maintenance

1. Use careful with the earphone maybe excessive sound pressure from earphones and headphones can cause hearing loss.
2. The product shall only be connected to a USB interface of version USB2.0 (5VDC, 0.5A).
3. EUT Operating temperature range: 0°C -40°C .
4. Power supply and ADP (rating): AC 100 V-240 V, 50/60 Hz 3.25 A
5. To prevent possible damage to hearing, do not listen at high volume levels for long periods.
6. The device complies with RF specifications when the device is used at a distance of 20 cm away from your body.

CAUTION

Risk of fire or explosion if the battery is replaced by an incorrect type.
Replacement of a battery with an incorrect type that can defeat a safeguard (for example, in the case of some lithium battery types);
Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;
A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.
