HONNIMAK

WIRELESS INDOOR/OUTDOOR

HUMIDITY AND TEMPERATURE MONITOR

USER MANUAL

Wired, Wireless

support@honnimak.com

WARNINGS

- The remote sensor is not proof, so it must be always placed in a place where it is not getting noise through the wires on the battery, making it detect the environmental temperature and humidity more precisely and quickly.
- This device contains electronic components (lower supply voltage batteries), so do not children use the device alone to avoid accidents. Refer to the manual to use the device.
- Only people who do not use the power of the device do not use any disassembly or increase it. It is safer to avoid damaging the electronics.
- Do not charge the battery by using any other methods.

OPERATION INSTRUCTIONS

- Open the battery compartment of the remote station on picture above, and insert AA batteries. Press the "T/C" button on the base station to switch between "C" and "T" mode. CH/ON/OFF to screen the channel.
- Open the battery compartment of the remote sensor and insert AA batteries. Choose the same channel of the base station. Press "T/C" button to go, and the temperature/humidity detected by the remote sensor will be displayed on the base station.
- Installation Tip: please try the following tip of the base station to correct with the remote sensor.
- Long press the CH/ON/OFF button on the base station for 3 seconds to reset the base station or the remote sensor until they are reset.

12

2) Signals from other electronic device may cause interference, please place the base station and the remote sensor away from other devices. The remote sensor may not be used in a place where there is a strong magnetic field. The base station and the device will connect properly under normal circumstances.

3) If the base station is attached to a refrigerator or a metal surface, the transmission distance may be shorter. Keep it away from magnetic objects or place the base station and remote sensor as close as possible.

SPECIFICATIONS

- 4.1MHz transmission frequency
- Transmission range: up to 100m (range may be shortened by interference)

Component:

- 1. Base Station (Receiver)
- 1. Remote Sensor (Transmitter)
- 4. AA Batteries

FUNCTIONS OF BASE STATION (RECEIVER)
