AI Stylus User Manual

Dongle model: DL01

◆ Safety Warnings

Before using and operating this equipment, please read and observe the following precautions carefully to avoid dangerous or illegal operations.

• Operating Environment

- ① Do not use the device in dusty or humid places to avoid internal circuit failure.
- ② Do not place this device near electric heaters or other heat sources.
- ③ The normal operating temperature for this device is 0~40℃, with a normal operating humidity of 10%~75%RH.

• Child Safety

This device and its accessories may contain small parts. Please do not place them in areas accessible to children to avoid potential hazards.

• Waterproofing

This device is not waterproof. Please keep it dry.

• Maintenance

- ① All repair services should be performed by qualified personnel. Do not attempt to disassemble or repair the device on your own if it is damaged.
- ② Do not insert any sharp objects into the device.
- ③ Avoid dropping or colliding with the device to prevent damage.
- ④ The pen cap is designed with a pull cord structure, do not pull forcefully.

• WARNING:

- ① Replacement of a battery with an incorrect type may defeat a safeguard;
- ② Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, may result in an explosion;

- ③ Leaving a battery in an extremely high temperature surrounding environment, such as sunshine, fire, or hot surface may result in an explosion or the leakage of flammable liquid or gas;
- ④ A battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas.

◆ Statement

- ① Intellectual property right statement: The hardware and software design of this product is covered by patents. Anyone who reproduces this product or its contents without the authorization of the Company shall be legally responsible.
- ② This instruction is provided for reference only, and the functions shown in the manual may differ from the actual functions of the product the customers actually purchase and receive.
- ③ The picture is for reference only. The final design may subject to change. The Company reserves the rights to improve and change the appearance and design of the product without notice.

◆ Accessories

Please check the following items in the product box.

- Smart pen × 1
- USB receiver × 1
- USB charging cable × 1
- Spare Pen Nib × 2

Note: charging specification for this device is (DC5V 0.5A).

This symbol, affixed to the product or its packaging, indicates that the product must not be processed with household waste. It must be brought to an electric and electronic waste collection point for recycling and disposal. By the appropriate disposal of this product you also help in preventing potentially negative consequences for the environment and human health. The recycling of materials helps preserve our natural resources. For further information regarding the recycling of this product, please contact your municipality, local waste disposal center or the store where the product was purchased.

◆ FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help.

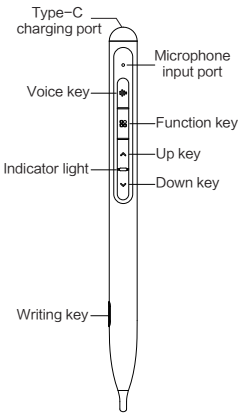

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate this equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RF Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment can be used in portable exposure conditions.

◆ Appearance Introduction

◆ Button Operation Instructions

Button press	Operation	Operation instructions
	Press and hold	· Ask AI
	Click	· Left mouse button · Open or close Note · Open or close Mark · Screenshot · Video play/pause · None
	Press and hold	· Mouse cursor
	Click	· Page up
	Click	· Page down
	Press and hold 5s	· Clear Pairing
	Click	· Switch Pen Color · None
	Press and hold	· Circle & Go · Erase Function · None

Note: Please make sure that the connected Interactive Intelligent Panel is compatible with the AI Stylus for use. Otherwise, some functions may not be available. “” and “” can be customised in Settings.

◆ Connection Instructions

Method 1: USB Receiver Connection

- ① Insert the USB receiver into the front USB port of the interactive smart tablet (to prevent signal attenuation), get close to the receiver, press any button on the smart pen, and it will connect automatically;
- ② If the connection is not successful, get close to the receiver again, press and hold the previous page and next page buttons for 5 seconds until the indicator light (red, green, blue) alternates flashing, then release, and it will connect automatically.

Method 2: Wireless Bluetooth Connection

- ① In the settings of the interactive smart tablet, enter the Bluetooth connection interface, select "AI Stylus" to connect.
- ② If the connection is not successful, get close to the interactive smart tablet, press and hold the previous page and next page buttons for 5 seconds until the indicator light (red, green, blue) alternates flashing, then release, and reconnect following the previous steps.

Note: If the device has sufficient battery but is not functioning, you can try using a 5V power source to forcefully reset the device by inserting it into the charging port.

◆ Indicator Light Status Explanation

Status	Explanation
Blue Indicator Light	Battery level > 20%
Red Indicator Light	Battery level ≤ 20%
Red Light Flashes Twice	Battery level ≤ 0%
Green Light Flashes	Charging in progress
Green Light Steady On	Charging complete
Slow Blinking Indicator Light	Smart pen waiting to connect
Fast Blinking Indicator Light	Smart pen firmware upgrading
Blue Light Steady On or Off	Enable/Disable capacitive writing function
Red, Green, Blue Sequential Blinking	Restore factory settings/Insert charger
