YI

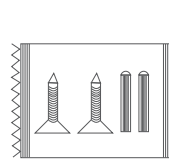

1. What in the box

Yi Dome Camera
x 1

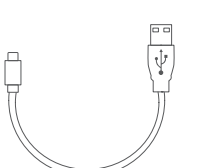

Camera Wall Mount x 1

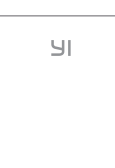

Installation Hardware x 1

Power Adapter x 1

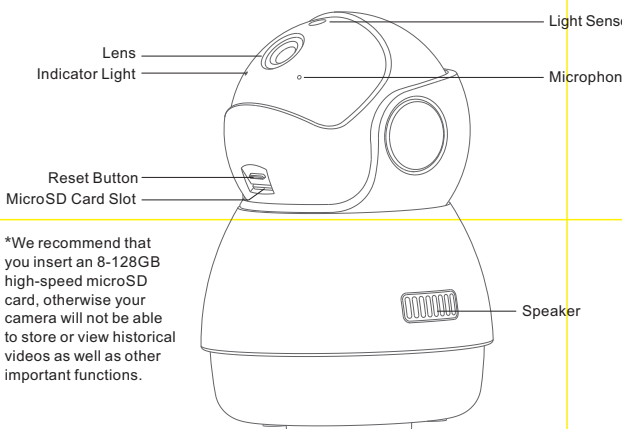

Micro-USB Cable x 1

User Manual x 1

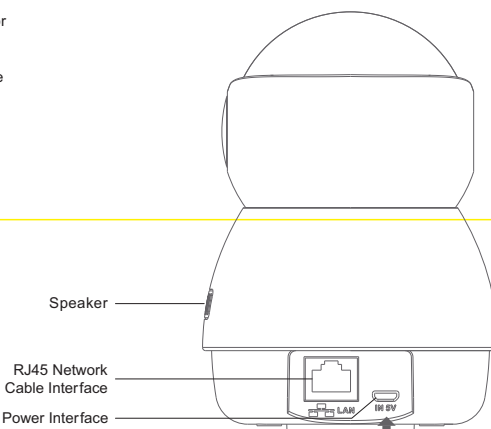

2. Getting to Know Your Camera

Labels: Lens, Indicator Light, MicroSD Card Slot, Repeat Button, Light Sensor, Microphone, Speaker.

Thank you for choosing Yi Dome Guard

Product Name: Yi Dome Guard
Model: YRS_3019
Wi-Fi Standard: 2.4GHz 802.11b/gn
Power Consumption: 3.5W (Max)
Input: DC 5V 1A
Operating Temperature: 10-50°C

Labels: Speaker, RJ45 Network Cable Interface, Power Input face.

3. General Introduction

a) Power on the Camera

As shown in picture 1, Locate the camera on the bottom of your camera and plug the included micro-USB cable into the included power adapter. The Indicator Light will turn on to indicate that the camera is on.

Ensure there is a Wi-Fi network available.

b) Connect Your Camera to the Yi Home App

- Download and install the Yi Home App from the Apple App Store or Google Play.
- You can also scan the QR code of the Yi Home App below and complete the installation.

c) Adding Your Camera to Your Yi Account

After logging into the Yi Home App, enter the device selection interface, and select your camera. The camera will flash red and then click "I want to add to connect" once you hear the "Waiting for connection" voice prompt.

Point the QR code displayed on your phone towards the camera lens and wait for the camera to scan the QR code. After the QR code has been scanned, click "Next" and wait until you hear "Adding successful".

You can now start using your camera!
