What's in the box

Camera x1

Envelope x1

Power Adapter x1

Screws x2

USB power cable x1

Camera mount x1

USB-Ethernet Adapter x1

Getting started

Please make sure your camera is near your Wi-Fi router and your phone is on the same Wi-Fi network.

Step 1
Download the Kami Home App from the Apple App Store or Google Play. Search for "Kami Home".

Step 2
Plug in your camera to switch on. (If you are installing a camera that has previously been installed on a different network or you've changed your Wi-Fi password, then you must first reset the camera by pressing the reset button located next to the USB connector. Continue to follow the instructions.)

Step 3

Sign up or login to your Kami account, then follow the on-screen instructions to pair your phone to your Kami camera.

Step 4
After logging in to your Kami Home App, click the "+" sign to select your device or scan the QR product code. When you hear the voice prompt, "waiting to connect," tap "heard voice prompt." Next, scan the QR code on the App with your camera. Wait until you hear the voice prompt, "connecting successfully."

Now your camera is ready to use!

Mounting Instructions

Note: The mounting area should support at least 3 times the total weight of the bracket and the camera.

1. Verify camera will face desired direction prior to mounting. Verify USB interface will reach desired location. Use included screws to install the mount on a flat ceiling.
2. Install the camera after twisting and locking it into the mount.
3. Tighten the base ring by turning with the screw.

Install the device
