

## **\*\*Product User Manual\*\***

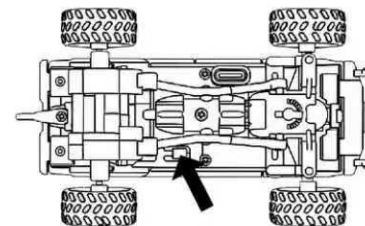

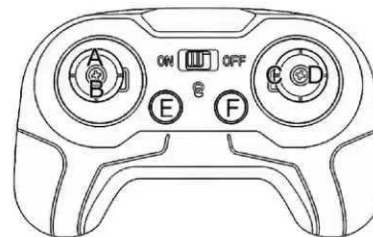

Please read the instructions carefully and store them properly for future reference.

### **1. \*\*Precautions:\*\***

- This product is suitable for children aged 6 and above. The car battery is non-replaceable but rechargeable. The remote control uses two 1.5V "AAA" batteries. Battery replacement should only be done with adult supervision. Swallowing these batteries is dangerous. Adult supervision is required during the charging process to avoid accidents. Please unplug the charging plug. Even when not in use for extended periods, it is necessary to charge and maintain the product every two weeks. This product should be kept away from water and chemical substances to prevent damage. Do not use it on soft surfaces (such as blankets, sand, etc.), as this can affect the speed and lifespan.

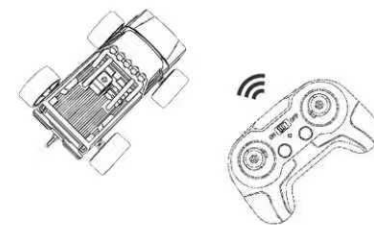

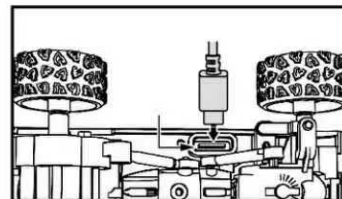

**Use 2X 1.5V "AAA"  
Size batteries  
(not included)**

Please press and hold this button until the car lights flash. Then turn on the remote switch until the remote indicator light and the car lights stop flashing. This will ensure that the remote control and the car can be used normally.

### **Remote Control Function Description:**

- Button A is used to move forward.
- Button B is used to move backward.
- Button C is used to turn left.
- Button D is used to turn right.
- Button E is used to enter automatic demonstration mode; any button press can exit automatic demonstration mode.
- Button F is used for the car's light switch.

**Charging time is 70 minutes! The car can be used continuously for 40 minutes on a full charge.iiiv**

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

\* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
