Date: 2025/06/19

Subject: Letter of Declaration on 6ID
FCC ID: 2AFIW-BE9300

To whom it may concern:

We [GL Technologies (Hong Kong) Limited], attest that this device under FCC ID 2AFIW-BE9300 complies with device protocol requirements and operational restrictions: for Indoor Access Point 6ID.

- a.) 1. Contention-Based Protocol, as demonstrated in the test report, is permanently embedded in the module and is not host-dependent.
2. The module uses the IEEE 802.11 beacon signaling to inform the associated client/subordinate device of its permitted maximum power. The IEEE beacon contains a 6GHz operation information subfield. The subfield will contain information identifying the module as a LPI AP and a maximum transmit power interpretation subfield.
- b.) 1. The module acts as an Access Point operating in the 5.925-7.125 GHz band will be supplied power from a wired connection, has an integrated antenna, is not battery-powered, and does not have a weatherized enclosure.
2. This module's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet only in the 5.925- 6.425 GHz band.
3. The module is prohibited for control of or communications with unmanned aircraft systems, including drones.
