| <div>Solder<br/>Board-Component View<br/>4</div> |  A photograph of a small green printed circuit board (PCB) component, labeled 'S7133', placed on a blue textured surface. The component is rectangular with a gold-plated edge connector on the right side. It is positioned next to a black ruler with white markings in millimeters, showing its dimensions are approximately 30mm by 15mm.                                                                                           |
| <div>Solder<br/>Board-Component View<br/>5</div> |  A photograph of a larger green printed circuit board (PCB) component, labeled 'GLT_MFL_V2.6.4', placed on a blue textured surface. The component is rectangular with a gold-plated edge connector on the left side. It features various electronic components, including capacitors and a QR code. It is positioned next to a black ruler with white markings in millimeters, showing its dimensions are approximately 100mm by 60mm. |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| <div>Solder<br/>Board-Component View<br/>6</div> |  A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 6'. The component is rectangular with rounded corners and features a large, silver-colored rectangular area on the left side, likely a solder mask or a component. It is populated with various electronic components, including integrated circuits, resistors, and capacitors. The component is placed on a blue textured surface next to a black ruler with white markings, which shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).  |
| <div>Solder<br/>Board-Component View<br/>7</div> |  A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 7'. The component is rectangular with rounded corners and features a large, silver-colored rectangular area on the left side, likely a solder mask or a component. It is populated with various electronic components, including integrated circuits, resistors, and capacitors. The component is placed on a blue textured surface next to a black ruler with white markings, which shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). |
