

Let's get started.

GL·iNet

Collie / GL-X300BGC4
Industrial 4G LTE Gateway

SETTING UP

1 Insert Cards & Power On

When powered up, your router will broadcast a Wi-Fi signal with the SSID: **GL-X300B-xxx**.

! Hot plug for standard SIM card is not supported for this router.

2 Connect via Wi-Fi

Connect to the 2GHz Wi-Fi called **GL-X300B-xxx**, and input the default Wi-Fi password **goodlife**, which is also printed on the bottom of the router.

Wi-Fi	☐
✓ GL-X300B-xxx	☒
Search the SSID and connect to it	
Password	••••••••

Default password is **goodlife**

or

3 Set up Router

Visit <http://192.168.8.1> in your browser to set up your router; start by choosing your preferred language.

INSTALLATION

For Wall Mounted Applications

Collie's mounting platform has screw slots for wall mounting in an industrial environment, conveniently deploy the device in a safe position with minimal physical interference for reliable wireless connection.

For DIN Rail Mounted Applications

Collie's mounting platform is conveniently designed to fit in a DIN rail along with other electrical equipment, simplifying the deployment of an organized wiring design within an electrical enclosure or in other industrial environments.

SUPPORT

Repair / Reset

If you cannot access the web-based setup page or cannot connect to the router, you can press the **Reset button**:

- Press and hold for **3 seconds**, and then release to repair your network.
- Press and hold for **10 seconds**, and then release to reset the router to factory settings. All user data will be cleared.
