4.Then turn on phone A Bluetooth function, click Bluetooth headphone model "D201", pairing is done.

Speaker parameters

- Speaker diameter: Φ30mm
- Impedance: 37Ω
- S.P.L: 115dB S.P.L. at 1KHz
- Frequency response: 20Hz–20,000Hz

Function features

- Double–vibration Bluetooth headphone brings touch to body, stimulates sensitive nerve and let you indulge in changing musical scene and joy. High technology creates the best vibration experience and roar.
- Pure digital sound double decoding system, featuring rich sound and low pitch; it plays files of multiple formats.
- High signal to noise ratio Bluetooth audio connection no need of any emitter, enjoy wireless music freely.
- Intelligent power saving mode, low power consumption design,built–in lithium battery works over 10 hours continually.
- Automatic switch between voice communication and music play. Neither entertainment nor communication is neglected.
- Automatic voice prompt of headphone operation
- Automatic number reporting when there is incoming call.
- Foldable portable design, with three multifunctional key, simple and easy to use;

Product specification/parameters

- System support: audio frequency device with Bluetooth function, including PC, phone, MP3 and laptop, etc.
- Bluetooth protocol agreement: Bluetooth V4.1
- Receiving distance: 15m+360°
- Carrier frequency: 2402MHz–2480MHz
- Battery: chargeable Li–ion polymer battery (3.7V 250MAH);
- Charging source: computer USB port DC5V; DC5V (500MA) Travel charger: DC 5V (500MA) car charger
- Continuous working time: over 10hours
- Frequency response: 20Hz–20KHz;

Precautions

To have the best sound quality of headphone, please wear it correctly. L on the headphone means left, R means right. Do not dismantle hardware without permission; use dry and soft cotton products to clean the headphone. We suggest you take the following preventive measures:
1.Fully charge the Bluetooth headphone when use it for the first time
2.This headphone is not waterproof. Please keep it away from water or moisture to prevent it from damage
3.Please use original battery. Do not replace battery or connect it with other power source without permission.
4.If this headphone will not be used for a long time, please charge and discharge it once a week to prolong its battery service life.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
