

SteadyBoost™ Compact I

Wireless Charger - F309W

- iP™** Intelligent Power Technology
- ControlHeat™** Technology (Overheat Protection)
- ControlLight™** Technology
- ControlSlip™** Technology
- Smart IC Chip Protection

User Manual

Connect to Power Adapter

1. Plug the USB Adapter into a power socket.
2. Connect the USB Charging Cable to the USB Adapter and USB Type-C port to the charging pad.
3. After LED indicator flashes blue and red once, the charger enters into standby mode.

⚠ Caution
Only the QC 2.0/3.0 standard power adapter supports this product's quick charge function. You will need to buy a power adapter separately.

3

Charging Mode

The blue LED indicator light will automatically turn off after 60 seconds of initial charging. If you detach a charging smartphone from the charging pad, the blue LED will turn off and go into standby mode.

Please attach the provided Non-Slip Pad for maximum slip prevention.

4

LED light status

Status	LED
Power connection	LED flashes blue and red once and turns off.
Standby mode	The LED will turn off
When charging	The blue LED light will turn on for 60 seconds
If metal fragments detected or input power lacking	The red LED will start blinking

*** Sleep Friendly LED indicator**
ControlLight™ Technology turns off LED light after 60 seconds when charging starts

⚠
***If metal fragments detected:**
Make sure no metal fragments are between the device and charging pad.

***Adapter recommendations:**
Use AC adapters with over 9V~2A / QC2.0(18W) in power supply output

5

Caution

1. Do not apply heavy pressure.
2. Do not disassemble or directly expose the product to heat or water.
3. Do not use the product in severely hot or humid environments to avoid circuit damage.
4. Do not place the product too closely to a card with a magnetic chip and/or strip (e.g., ID or credit card) to avoid magnetic failure or malfunction.
5. Maintain a minimum distance of 20cm between medical devices (e.g., pacemaker or hearing aid) and the product to avoid interference.
6. Keep out of the reach of children.

* The images shown are guidelines and examples of using the Portable Fast Wireless Charger F309W, and can differ from the actual product.

* For devices incapable of wireless charging, a wireless charging patch or case can be used separately to wirelessly charge the device.

Note

B Class Equipment (Equipment for home use)
* This product is mainly for home use with radio wave acceptability registration; therefore, it can be used in all areas.

Specifications

- Input: 5V~2A, 9V~2A / QC2.0(18W)
- Output: 5W / 7.5W / 10W
- Dimensions: 70 x 70 x 11mm / 2.76 x 2.76 x 0.43in
- Weight: 42g / 1.48oz

6

FCC Compliance Statement:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device must operate with a minimum distance of 20 cm between the radiator and user body.

7

ISED Compliance Statement:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RF Exposure Compliance Statement:

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.
