Re: TCB Continuing Compliance for: Model: K2 (FCC ID: 2AFM5K2)
Date of granting the equipment authorization: June 8, 2017
Original work number: 94899

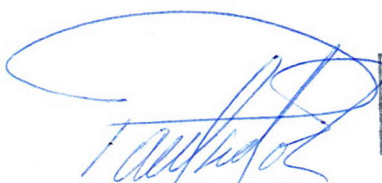

Subject: Sample request response

Dear MET Laboratories, Inc., I am PAUL CIRO ALEXANDER ESCOBAR DUQUE and writing to you about request of a sample of the CIRO K2 model that FCC was obtained on June 8, 2017, which was approved and granted, however, I must indicate that never made mass production of the aforementioned model was carried out and that no units were ever sold.

For these reasons we cannot deliver a sample without having made a production or sale of the requested model.

We request remove of the FCC (ID: 2AFM5K2) because we will not produce the model in question.

Best Regards

Paul Escobar Duque
