

Product Model 产品型号	LM35	Brand 品牌	中性	Product Type 产品类	说明书	Description 描述	
Part Number 物料编号		Job No. 图档编码		Membrane 表面工艺		Color 颜色	单色印刷
Material 材质	128g哑粉纸 双面印刷	Dimension 尺寸	90*65mm	Scale 比例	1:1	Tolerance 公差	
Revision 版本号	1.0	Original Designer 原设计师		Verifying 审核		Date 日期	2024.9.5
Remark 备注		Change Description 版本变更描述					

A vertical ruler on the left side of the page, marked from 0 to 100 cm. The ruler is used for scale in the technical drawing of the wireless charger.

Technical drawing of a 3-in-1 wireless charger, showing the product and its specifications in Chinese and English. The drawing includes a top view and a side view of the charger, which is a white, rectangular device with a circular charging pad and a small display screen. The specifications are listed in two columns: Input, Output, and Charging distance. The drawing also includes a 'Charging Mode' section with a list of instructions and a 'Notes' section with a list of safety warnings. The drawing is labeled 'Made for Apple WATCH' and 'CE'.

Thanks for choosing us!

This product is a 3 in 1 wireless charger support phone/Airpods/Apple Watch charging at the same time.

Please kindly read the user manual before using and keep it for future reference.

Charging Mode

1. The device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
[1]This device may not cause harmful interference, and [2] this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.
2. The FCC certification of this device refers to RF exposure testing performed in typical operating conditions, where a person stands not closer than 20 centimeters from the device surface at all times, except for non-repetitive patterns with transient interval is used for a second. Only in the stated conditions, the device is shown to fully comply with the FCC RF Exposure requirements of KDB 744748.

Specification

Input:5V~3A, 9V~3A, 12V~3A Output(Phone):15W Max Output(Watch):5W Output(Earbuds): 5W Max	Charging distance: ≤10mm Conversion: ≥72% NW: 282g Dimensions: 93°149°163mm
--	--

Notes

1. Do not disassemble or throw into fire or water, to avoid causing a short circuit leakage.
2. Do not use wireless charger in severely hot, humid or corrosive environments, to avoid circuit damage and occurs leakage phenomenon.
3. Do not place too close with magnetic stripe or chip card (ID card, bank cards, etc.) to avoid magnetic failure.
4. Please keep the distance at least 20cm between implantable medical devices (pacemakers, implantable cochlear, etc.), and the wireless charger to avoid potential interference with the medical device.
5. To take care of the children, to ensure that they won't play the wireless charger as a toy, to avoid unnecessary accidents.

CE Maintenance

- 1 EU/T Operating temperature range:-10° C to 35° C.
- 2 The device complies with RF specifications when the device used at 20mm from your body.

Declaration of Conformity

Powering hereby declares that this LMSS Q2 3-in-1 Wireless Charger is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU in accordance with Article 10(2) and Article 10(10). This product is allowed to be used in all EU member states.

- ① Make sure the wireless charger dock connect to the power supply.
- ② Put the smartphone/Airpods/Apple Watch properly on the transmitter.

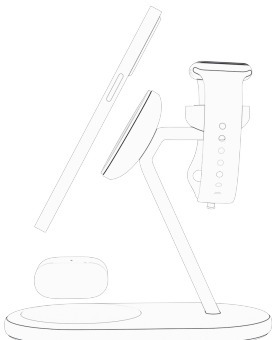

Frequency Bands:	Cell1: For Phone: 113kHz-205kHz; 360kHz Cell2: For Earphone: 113kHz-205kHz Cell3: Watch: 300kHz-350kHz
Corrected Amplitude H-field:	Cell1: 11.11kHz-205kHz; 21.64dBuA/m; 360kHz: 18.0dBuA/m Cell2: 21.80dBuA/m Cell3: 21.16 dBuA/m

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
[1]This device may not cause harmful interference, and [2] this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.

The FCC certification of this device refers to RF exposure testing performed in typical operating conditions, where a person stands not closer than 20 centimeters from the device surface at all times, except for non-repetitive patterns with transient interval is used for a second.
