Component Side

Solder Side

A collection of disassembled electronic components, including a black plastic housing, a green printed circuit board (PCB) with a barcode, a silver metal spring, a white cable, and various connectors and small parts. The components are laid out on a white surface. The black plastic housing is at the top left. The green PCB is in the center. The silver metal spring is to the right of the PCB. The white cable is below the spring. Various connectors and small parts are scattered around. A small black plastic piece is at the bottom left. A clear plastic bag is at the bottom right.
