

**Apparatus: RUN PROFILER (model: INTS)**  
**FCC ID: 2AFVU-INTS**

**RF Exposure Considerations for FCC ID: 2AFVU-INTS**

Per FCC KDB 447498 D01 General RF Exposure Guidance v05

The 1-g and 10-g SAR test exclusion thresholds for 100 MHz to 6 GHz at *test separation distances* ≤ 50 mm are determined by (Eq.1) below:

$$SAR = \frac{EIRP(mW)}{d(mm)} \times \sqrt{f(GHz)} \quad (Eq. 1)$$

Where:

- SAR is the calculation for test exclusion threshold;
- EIRP is the maximum power of channel, including tune-up tolerance, in mW;
- d is the minimum test separation distance, in mm;
- f is the RF channel transmit frequency, in GHz.

Power and distance are rounded to the nearest mW and mm before calculation.

The result is rounded to one decimal place for comparison.

If result of Eq.1 is less than or equal to the exemption limits below, then corresponding SAR test is not required.

| SAR Test Configuration | Exemption limit      |
|------------------------|----------------------|
| 1-g SAR                | Result of Eq.1 ≤ 3.0 |
| 10-g extremity SAR     | Result of Eq.1 ≤ 7.5 |

The test exclusions are applicable only when the minimum *test separation distance* is ≤ 50 mm and for transmission frequencies between 100 MHz and 6 GHz. When the minimum *test separation distance* is < 5 mm, a distance of 5 mm is applied to determine SAR test exclusion.

**For our device, the parameters for consideration are as follows:**

| Channel | Frequency (GHz) | Maximum source-based time averaged conducted output power including tune-up tolerance (mW) | Minimum separation distance (mm) | Result of Eq. 1 | Limit for 1-g SAR | Limit for 10-g extremity SAR | Verdict         |
|---------|-----------------|--------------------------------------------------------------------------------------------|----------------------------------|-----------------|-------------------|------------------------------|-----------------|
| 1       | 2.402           | 1.12mW                                                                                     | 5mm                              | 0.348           | 3.0               | 7.5                          | Exempt from SAR |
| 20      | 2.440           | 1.05mW                                                                                     | 5mm                              | 0.325           | 3.0               | 7.5                          | Exempt from SAR |
| 40      | 2.480           | 1.12mW                                                                                     | 5mm                              | 0.348           | 3.0               | 7.5                          | Exempt from SAR |
