A photograph of a black printed circuit board (PCB) with various electronic components. A red rectangular box highlights a specific component on the right side of the board. The board is placed on a light-colored wooden surface. The components visible include a large integrated circuit (IC) in the center, several smaller ICs, resistors, capacitors, and a multi-pin connector on the left. The red box encloses a small, cylindrical component, likely a capacitor or a small inductor, which is mounted on a small PCB section. The board has white text printed on it, including "VIA VIO", "DIO CLK LITE 2.9 R22-11", and "ML 41A05038A". The number "10" is also visible in the top right corner.
