

MODEL ATTESTATION COVER LETTER

Federal Communications Commission
Authorization and Evaluation Division

Date : Jul 30, 2026

Subject: Request for Addition of Model Numbers under FCC ID: 2AFWN-EL315TVW6S
Applicant: SOLUM CO.,LTD.

Dear Examiner,

Addition of model number as follow:

Model 1 (Base Model): EL315TVW6S
RF: 2.4GHz SRD, WLAN 2.4GHz (802.11b/g/n-HT20), WLAN 5GHz (802.11a/n-HT20)
Software version: V049

Model 2 (Derivative Model): EL315TVW6S/WWW
RF: BLE 1Mbps, WLAN 2.4GHz (802.11b/g/n-HT20), WLAN 5GHz (802.11a/n-HT20)
Software version: V008

Model 3 (Derivative Model): EL315HVVW6S/WWW
Identical to Model 1 (Base Model: EL315TVW6S) in all HW, SW, and RF specifications.
The only difference is the model name.

The hardware between all models is identical. The only functional difference is that the 2.4GHz SRD function of the base model has been replaced with BLE function via software configuration in Model 2 (EL315TVW6S/WWW). Model 3 (EL315HVVW6S/WWW) differs from the base model in model name only, with no change in hardware, software, or RF specifications. All other RF specifications remain unchanged across all models.

All models have been tested for their respective RF configurations, and full compliance is demonstrated in the enclosed test reports.

Sincerely,

A handwritten signature in black ink, appearing to read "Lee Tae Ha", written over a horizontal line.

LEE TAE HA / Manager
SOLUM CO.,LTD.
