Glossary

The following terms are used throughout the product literature to indicate various levels of potential harm when operating this product.

WARNING: Procedures, which if not properly followed, may incur property damage, grave accident, or serious injury.

CAUTION: Procedures, which if not properly followed, may incur property damage and serious injury.

NOTICE: Procedures, which if not properly followed, may incur property damage or minor injury.

WARNING

This is a sophisticated product. It must be operated with caution and common sense and requires some basic mechanical ability.

Please read the ENTIRE User Guide to become familiar with the features of this product before operating. Failure to operate the product correctly can result in damage to the product or personal property and cause serious injury. This product is not intended for use by children. DO NOT use with incompatible components or in any way otherwise as mentioned or instructed in the product documents provided by Weifeng. The safety guidelines herein contain instructions for safety operation and maintenance. It is essential to read and follow all of the instructions and warnings in the User Guide, prior to assembly, setup or use, in order to operate the product correctly and avoid damage or serious injury.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Safety Operation Guidelines

WARNING:

1. Prevent the product to come into contact with any kind of liquid. Do not leave the product in the rain or near a source of moisture. Do not drop the product into water. If the inside of the battery comes into contact of water, chemical decomposition may occur, potentially resulting in the battery catching on fire, and may even lead to explosion.
2. If the product catches fire, use water, water spray, sand, fire blanket, dry powder, or carbon dioxide fire extinguisher immediately to put out the fire. Please exting the fire by applying the methods recommended above according to the actual situation.
3. Please use the product within the temperature range from -10℃ to +45℃.
4. Do not disassemble or use any sharp object to puncture the battery in any way. Otherwise the battery may leak, catch fire or explode.
5. Do not mechanically strike, crush, or throw the product. Do not place heavy objects on the product.
6. Do not heat the product and never put the product in a microwave oven or in a pressurized container.
7. Do not leave the product near heat sources such as a furnace or heater, or inside of a vehicle on hot days. Never expose the product in any environment with temperature of over 60℃. The ideal storage temperature is 22℃-28℃.
8. Do not leave the battery unused for too long after it has been completely discharged to prevent over-discharge of battery which may result in battery damage and permanent failure.

Safety Operation Guidelines

CAUTION:

- 1.Wi-300 is a high-precision control device. Damage may be caused to Wi-300 if it is dropped or subject to external force, and this may result in malfunction.
- 2.Make sure the rotation of the gimbal axes is not blocked by external force when Wi-300 is turned on.
- 3.Wi-300 is not waterproof. Prevent contacts of any kind of liquid or cleaner with. It is recommended to use soft dry cloth for cleaning.
- 4.Protect Wi-300 from dust and sand during use.

NOTICE:

- 1.The battery will stop charging automatically when it is full. Disconnect the product from the charger when fully charged.
- 2.Discharge the battery to 40%-65% if it will NOT be used for over 10 days. This can greatly extend the battery life.
- 3.Battery performance may be affected if not used for a long time. Charge and discharge the battery once every 3 months to keep it active.
- 4.Keep the handle stable when Wi-300 is powered on, as shaking may cause failure to start up.

Wi-300 Stabilizer Introduction

Payload: 75g-200g
Horizontal Arm Adjustment Range: 15mm (0.6 inch)
Mounting Clamp Supporting Range: 58-85mm (2.3-3.3 inch)

Mobile Charging

The USB port at the backside of the stabilizer handle can be used for convenient charging of your smartphone, which guarantees extended working duration both for the stabilizer and the smartphone.

Stabilizer Charging

Connect the Micro USB port on the side of the stabilizer handle to a 5V power source via the Micro USB charging cable for direct charging.

APP Download and Installation

For iOS: Download the APP by searching "weifeng" in APP Store (iOS 9.0 above required).

For Android: Download the APP by searching "weifeng" in Google Play or from the "CONTACT US--APP Download" page on weifeng's official website www.weifengchina.com. (Android 5.0 above required).

"weifeng" icon below for reference.

Smartphone Installation

Push and hold open the smartphone clamp; slide the smartphone in as close as possible against the tilt axis motor; slide the clamp to the middle.

Do not power on the stabilizer before the smartphone is properly mounted.
