

小米手机·包装标准图纸

料号: XXXXXXXXXXXX 版本: A

物料描述（名称）：C3G 入门指南 英文版

图纸发布日期：2018年XX月XX日

材料：

金东太空梭 105g 无光铜

基本结构工艺：

正背哑油

模切线

压线

基本印刷工艺：

专色

Pantone Cool Gray 8C

其他特殊注意事项：

供应商料号，请供应商根据规定自行补充

并印刷

字体: Arial 3pt

Legal Information This device may be operated in all member states of the EU. Observe national and local regulations where the device is used. This device may be restricted for use, depending on local network. Ensure the power adapter used meets the requirements of Clause 2.5 in IEC60950-1/EN60950-1 and has been tested and approved according to national or local standards. Frequency Bands and Power This mobile phone offers the following frequency bands in EU areas only and maximum radio-frequency power : GSM 900: 35 dBm GSM 1800: 32 dBm UMTS band 1/8: 25 dBm LTE band 1/3/7/8/28/38/40: 25.7 dBm Bluetooth: 20 dBm Wi-Fi 2.4 GHz band: 20 dBm FCC Regulations This mobile phone complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2)this device must accept any interference received, including interference that may cause undesired operation. This mobile phone has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiated radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. RF Exposure Information (SAR) This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy. The exposure standard for wireless device employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/Kg. For body worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and be positioned a minimum of 1.0 cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. If you do not use a body-worn accessory and are not holding the device at the ear, position the handset a minimum of 1.0 cm from your body when the device is switched on. FCC Note Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. E-label This device has an electronic label for certification information. To access it, please select Settings>About Phone>Regulatory labels or select Settings, then type "Regulatory labels" into the search bar. Important Safety Information SAR 10g limit: 2.0W/Kg. SAR Value: Head: 0.579 W/Kg. Body: 1.457 W/Kg (5mm distance). SAR 1g limit: 1.6W/Kg. SAR Value: Head: 0.98 W/Kg. Body-worn: 1.18 W/Kg (10mm distance). Hotspot: 1.18 W/Kg (10mm distance). Temperature: 0 °C - 40 °C Install the adapter near the device in an easily accessible position. Model: M1903C3GH 1903 indicate the date of putting the product on the market is 201903 Manufacturer: Xiaomi Communications Co., Ltd. Manufacturer postal address: The Rainbow City of China Resources, NO.68, Qinghe Middle Street, Haidian District, Beijing, China 100085 Brand: MI Model: M1903C3GH All rights reserved by Xiaomi Inc.  000000000000.A Redmi Go User Guide 65mm

Android (Go edition)

Say hello to Android Go on your new Redmi Go.
A powerful experience for entry-level smartphones. It's the best of Android, built with new and reimagined apps, so even the most affordable Android smartphones present the optimum experience.

SIM Card Tray:

About Dual SIM:

- Two 4G networks cannot be used simultaneously.
- When 2 SIM cards are in use, one SIM will offer 4G/3G/2G while the other will offer only 3G/2G.

Important safety information

- Read all the safety information below before using your device.
- Using unauthorized cables, power adapters, or batteries can cause fire, explosion, or pose other risks.
- Use only authorized accessories which are compatible with your device.
- This device's operating temperature range is 0°C to 40°C. Using this device in the environments outside of this temperature range may damage the device.
- If your device is provided with a built-in battery, don't attempt to replace the battery yourself to avoid damaging the battery or the device.
- Charge this device only with the included or authorized cable and power adapter.
- Using other adapters may cause fire, electric shock, and damage the device and the adapter.
- After charging is complete, disconnect the adapter from both the device and the power outlet. Do not charge the device longer than 12 hours.
- The battery must be recycled or disposed of separately from household waste. Mis-handling the battery may cause fire or explosion. Dispose or recycle the device, its battery and accessories according to the local regulations.
- Do not disassemble, hit, crush, or burn the battery. In case of deformation, stop using the battery immediately.

Security notice

- Observe any laws and rules which restrict using mobile phones in specific cases and environments.
- Do not use your phone in petrol stations and explosive atmospheres and potentially explosive environments include fueling areas, below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust, or metal powders.
- Obey all posted signs to turn off wireless devices such as your phone or other radio equipment. Turn off your mobile phone or wireless device when in a blasting area or in areas posted turn off "two-way radios" or "electronic devices" to avoid interfering with blasting operations.
- Do not use your phone in the hospital operating rooms, emergency rooms, or intensive care units. Comply with the current rules and regulations of hospitals and health centers. Please consult your doctor and the device manufacturer to determine if operation of your phone may interfere with the operation of your medical device. To avoid potential interference with the pacemaker, keep a minimum separation of 15 cm be maintained between the mobile phone and the pacemaker.
- To achieve this, use the phone on the opposite ear to your pacemaker and do not carry it in a breast pocket. Do not use your phone near hearing aids, cochlear implants, etc., to avoid interference with medical equipment.
- Respect aircraft safety regulations and turn off your phone on board the aircraft when required.
- When driving a vehicle, use your phone in accordance with the relevant traffic laws and regulations.
- To avoid lightning strike, do not use your phone outdoors during thunderstorms.
- Do not use your phone to make calls while it is charging.
- Do not use your phones in places with high humidity such as bathrooms.

Doing so may result in electric shock, injury, fire, and charger damage.
