Legal Information

This device may be operated in all member states of the EU. Observe national and local regulations when the device is used.

This device is listed and to indoor use only when operating in 5150 to 5350MHz frequency range in following countries:

Ensure the power adapter used meets the requirements of Clause 2.5 in IEC60950-1/EN60950-1 and has been tested and approved according to national or local standards.

Manufacturer :
The Shenzhen Co. of China Resources, NO.68, Gunghe Middle Street, Haidian District, Beijing, China 100085

Frequency Bands and Power

This mobile phone offers the following frequency bands in EU areas only and maximum output transmitting power:

GSM 900: 33 dBm
GSM 1800: 33 dBm
UMTS band 1: 23 dBm
LTE band 1: 23 dBm/20 dBm/18 dBm/15 dBm
Bluetooth: 10 dBm
Wi-Fi: 2.4 GHz band: 20 dBm
Wi-Fi: 5 GHz band: 10 dBm

FCC Regulations

This mobile phone complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This mobile phone has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information (SAR)

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy. The exposure standard for wireless device employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/Kg. For body worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and is positioned a minimum of 5 cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. If you do not use a body worn accessory and are holding the device at the ear position, the handset with the indicated distance away from the body.

FCC Note

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

E-label

This device has an electronic label for certification information. To access it, please select Settings > About phone > Verification or select Setting, then type "Verification" into the search bar.

Important Safety Information

SAR 10g limit: 2.0W/Kg, SAR Value: Head: 0.542 W/Kg
Body: 1.563 W/Kg
SAR 1g limit: 1.6W/Kg, SAR Value: Head: 0.50 W/Kg
SAR 1g limit: 1.6 W/Kg, SAR Value: Head: 0.50 W/Kg
Hotspot: 1.16 W/Kg (10mm distance)

Temperature: 0 °C ~ 40 °C

Install the adapter near the device in an easily accessible position.
