RE: FCC ID: PWX-C65 / Class II Permissive Change Request

Dear Sir or Madam:

Pursuant to §2.1043(b)(2) of the Commission's Rules (47 C.F.R. §2.1043), **Siemens Communications, Inc** hereby submits this request for a Class II Permissive Change to the **C65** handset series (FCC ID: PWX-C65).

DESCRIPTION OF PRODUCT CHANGES:

For all six models of the C65 series which include C65, CT65, CV65, C70, CT70 and the CV70, the RF circuitry uses an alternate transceiver chip set (Infineon Smarti SD chip set PMB6270) and an alternate front-end module (Epcos M0027). Some circuitry changes were made to adapt the new chip set to the power amplifier. These modifications have been documented and tested for submission.

If you have any question or require additional information, please feel free to contact me at (858) 521-3200 or via email at Milton.deleon@siemens.com.

Sincerely,

Milton de Leon
