Download GooglePlay

Download AppStore/Android

Set up router

The router supports the 2.4GHz WiFi (doesn't support the 5GHz), and is connected to the WiFi network. Please set the parameters of the router before connecting the WiFi network, and record the SSID and password of WiFi.

Please keep network available

2.4GHz

5GHz

Registration process

Step 1 Open the App, click "Sign up now" to register.

If you already have an account, click "Log In" to log in.

The image shows the 'Welcome' screen of an application. At the top, it says 'Welcome'. Below that is a field for 'United States' with a '+1' and a chevron icon. There are input fields for 'Account' and 'Password'. Below the password field are two links: 'Remember password' and 'Forgot password?'. A large grey button labeled 'Log in' is in the center. Below it are three social media icons: Facebook, WhatsApp, and Apple. At the bottom, there is a link 'No account?' followed by a red-bordered button labeled 'Sign up now'.

Step 2 Input a legal Email address and check the privacy agreement.

Then enter the nickname and password.

The image shows the first part of the 'Sign Up' screen. It has a back arrow at the top left. The title is 'Sign Up'. Below it is a field for 'United States' with a '+1' and a chevron icon. There is an 'Email' field with the text 'test1@163.com'. Below the email field is a green circle with a checkmark and the text 'Registration, please, agreement with the user agreement and privacy agreement.' At the bottom is a large teal button labeled 'Next'.

The image shows the second part of the 'Sign Up' screen. It has a back arrow at the top left. The title is 'Sign Up'. Below it is an 'Account' field with the text 'Test1@163.com'. There is a 'Nickname' field with the text 'AA'. Below the nickname field is a 'Password' field with a chevron icon. Below the password field is a note: 'Password: 8-16 digits, including two types of numbers, upper or lower case letters and characters at least'. At the bottom is a large teal button labeled 'Done'.

Step 3 Click "Add Device" or "+", and then select the corresponding camera icon to add.

Step 4 Power on the device and click "Next" on App.

Step 5 Reset the camera and click "Next" on App.

Step 6 Select the WiFi network and input the password, and click "Next".

Note: 1) Camera only supports 2.4GHz WiFi network.

2) The number of bits in the ssid and passwords of the router should not exceed 24 digits.

Step 7 View the operation instructions of scanning, and then click "Next". Scan the QR code in your phone with the camera and click "Next", when the camera comes out "dong dong dong". And you can complete the configuration about 30s.

Step 8 When connecting, you should make sure your router, mobile and camera are as close as possible.

Step 9 Follow the on-screen instructions.

You can click "📝" to DIY the camera's name.

Step 10 In live view interface, click "🔗", and then you can set up the camera common functions.

Q: The device cannot be previewed properly?

A: Check whether the network is normal, you can place the camera close to the router, and if not, it is recommended to reset the device and add it again.

Q: Why is it still in the list of devices after resetting?

A: The reset device only resets the network configuration of the camera, but cannot change the configuration on the App, remove the camera, and must be deleted by the App.

Q: How to cut the camera network to another router?

A: First remove and reset the device on the App and then configure the device again by the App.

Q: Why doesn't the device identify the TF card?

A: It is recommended to plug in TF card after power cut. Confirm whether the TF card is normally available and the format is FAT32. And the TF card can't be identified when the internet environment is not good.

Q: Why I can't get the notifications with my cell phone App?

A: Please confirm that the App has been running on the phone, and the relevant reminder function has been opened; Message notification and authority confirmation in the mobile phone system have been opened.

Functions

Pan/Tilt

Rotate your camera by sliding on your smartphone, providing you with a good vision.

Video flip

Flip your video stream up or down for maximum flexibility.

Motion detection

The camera can detect movement, and then the camera will send you push notifications and App alerts.

Crying detection

The camera can detect the crying of your baby, and the camera will send you push notifications and App alerts.

Temperature & humidity detection

The camera can detect the temperature and humidity of the environment, and you can view the values on your App.

Record

Support 24h continuous recording with high capacity TF storage or Cloud storage.

Day & Night

Never miss a moment, even in complete darkness, with powerful night-vision technology.

Night

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- To maintain compliance with FCC's RF Exposure guidelines. This equipment should be installed and operated with minimum distance between 20cm the radiator and your body: Use only the supplied antenna.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Restrictions declaration in the 5 GHz band:

(i)the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems

(i)Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

ISED Statement

This device complies with CAN ICES-003 (B)/NMB-003(B) CAN ICES-003 (B)

Déclaration d'ISED Canada

Cet appareil est conforme à la norme CAN ICES-3 (B)/ NMB-3 (B).

Industry Canada (ISED) Compliance Statement

This device complies with ISED's licence-exempt RSSs.

Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d' ISED applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage;
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Exposure warnings

The device meets the exemption from the routine evaluation limits in section 6.6 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 6.6 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body. Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu'aucune autre antenne ou émetteur. Cet équipement devrait être installé et actionné avec une distance minimum de 20 centimètres entre le radiateur et votre corps.
