This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures

Reorient or relocate the receiving antenna

Increase the separation between the equipment and receiver

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

Consult the dealer or an experienced radio/TV technician for help

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

#### Industry Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: L'appareil ne doit pas produire de brouillage. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

## Installation Guide

### 1. Program Registration

Before doing anything you must ensure that you have a valid **EyezOn** account. To set up your free EyezOn account go here [www.eyezon.com](http://www.eyezon.com) select the **CREATE ACCOUNT** link at the top of the page and submit the form.

### 2. Log-In to EyezOn Account

Your EyezOn account is your management tool for your SOLO system. From [www.eyezon.com](http://www.eyezon.com) select the **LOGIN** link and use the credentials sent you when you registered to proceed to your account.

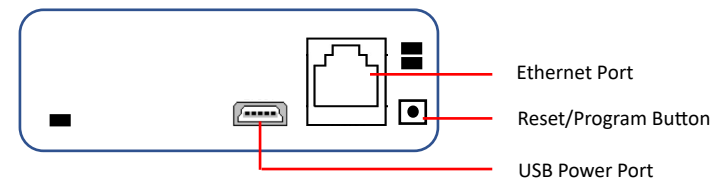

### 3. Install and Activate Device

Before powering on, record the 12 digit ID from the bottom of the device. From inside your EyezOn account select the **Add New Device** link and follow the instructions choosing SOLO as the product type use the 12 digit ID from the bottom of the unit.

### 4. Connect and Power On

See the diagram and instructions on the opposite page to complete the set up.

For a complete guide to SOLO and your EyezOn account please navigate to the **Help** page within your EyezOn account. There you can find the step-by-step guide to setting up and maintaining your system.

### To Connect

\*Note: Before proceeding to the next steps, record the 12 digit ID from the sticker on the bottom of the module. Make sure you have created an EyezOn account and have activated the device using the 12-digit code (see opposite page).

1. Plug in Solo base station to power source
2. Connect the ethernet cable to modem
3. Ensure you have the EyezOn App on your mobile device.

The EyezOn App is available at:
