Solder Board-Component View 4	 A photograph of a black printed circuit board (PCB) component, identified as a solder board component in View 4. The board is rectangular and populated with various electronic components, including a large central chip labeled 'H300000B', several smaller surface-mount components, and a gold-colored antenna on the right side. The board is placed on a blue background. A metal ruler is positioned vertically to the left of the board, showing markings from 1 to 9 mm. Another metal ruler is positioned horizontally below the board, showing markings from 1 to 9 mm. The board is oriented with its longer side parallel to the vertical ruler.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, identified as a solder board component in View 5. The board is rectangular and features a central component with three pins, labeled 'SRI-ZSSR-B12-IRV1.1'. Other markings on the board include '20250707', 'IR', 'GND', and 'VCC'. The board is placed on a blue background. A metal ruler is positioned vertically to the left of the board, showing markings from 1 to 6 mm. Another metal ruler is positioned horizontally below the board, showing markings from 1 to 5 mm. The board is oriented with its longer side parallel to the vertical ruler.

Solder Board-Component View 6	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 6'. The component is L-shaped and features a white multi-pin connector on the left side. It is placed on a blue background with two metal rulers for scale. The vertical ruler on the left shows markings from 1 to 6 mm, and the horizontal ruler at the bottom shows markings from 1 to 5 mm. The component has several solder pads and labels: 'VCC', 'GND', and 'IR' are visible near the connector, and '0.5mm' and 'mm' are printed on the board.
Solder Board-Component View 7	 A photograph of a yellow printed circuit board (PCB) component, labeled 'Solder Board-Component View 7'. The component is rectangular and features a black multi-pin connector on the right side. It is placed on a blue background with two metal rulers for scale. The vertical ruler on the left shows markings from 1 to 5 mm, and the horizontal ruler at the bottom shows markings from 1 to 4 mm. The component has several solder pads and labels: 'SRT-SRPT', 'DWJC-V1.0', '20250513', and 'RoHS' are visible on the top surface, and '0.5mm' and 'mm' are printed on the board.

Solder Board-Component View 8	 A photograph of a small green printed circuit board (PCB) component with several soldered pins. It is placed on a blue surface next to a metal ruler with millimeter markings. The ruler shows the component is approximately 1.5 mm wide and 3 mm long.
Antenna View	 A photograph of a larger black PCB populated with various electronic components, including a large central chip and several smaller components. A red rectangular box highlights a specific component on the right side of the board, which is a Bluetooth antenna. A red line connects this box to a label below the image. The board is placed on a blue surface next to a metal ruler with millimeter markings.

Bluetooth Antenna
