

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and
Board View 1****EUT Housing and
Board View 2**

EUT Housing and Board View 3	 A photograph showing a black plastic EUT housing and a yellow component board. The housing is L-shaped with a small circular opening. The board is rectangular with a yellow surface and a small circular opening. Both are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 1	 A photograph showing a yellow component board with a small circular opening. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).

Solder Board-Component View 4	 A photograph showing a small, yellow, rectangular component with two thin wires (one red, one black) attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 20 mm marks.
Solder Board-Component View 5	 A photograph showing a small, green, rectangular component with various electronic components (resistors, capacitors) and a small integrated circuit. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 20 mm marks.

Solder Board-Component View 6	 A photograph showing a small green printed circuit board (PCB) component with several surface-mounted components, including a black integrated circuit. The component is placed on a blue textured surface. A black L-shaped ruler with white markings in millimeters is positioned next to the component for scale. The ruler shows measurements from 0 to 100 mm.
Antenna View	 A photograph showing a small black antenna component with a yellow label. The label has the text "H606" and "1K0355 V008". A red line points from a red box labeled "BT Antenna" to the antenna component. The component is placed on a blue textured surface.
