

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT. On the left is a green printed circuit board (PCB) with various electronic components, including a large black chip and several smaller components. To the right of the PCB is a black, triangular-shaped plastic housing. Both components are placed on a light blue surface. A black ruler with white markings is positioned vertically on the left side of the components, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 1	 A photograph showing a close-up view of the green PCB. The board is populated with various electronic components, including a large black chip, several smaller components, and a USB connector. The board is placed on a light blue surface. A black ruler with white markings is positioned vertically on the left side of the board, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Antenna View	 The image shows the back of a black, triangular electronic device. A ruler is placed next to it for scale. A red box labeled "EDR Antenna" points to a small, rectangular antenna component on the device's surface. The ruler shows measurements in millimeters, with markings from 0 to 100 mm visible.
Antenna View	 The image shows the front of a green printed circuit board (PCB) of the device. A ruler is placed next to it for scale. A red box labeled "BLE Antenna" points to a small, rectangular antenna component on the PCB. The ruler shows measurements in millimeters, with markings from 0 to 100 mm visible.
