Compliance Statement for onn Wireless Gaming Headset

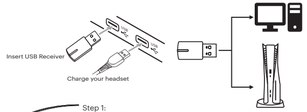

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Important: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Let's Get Started!

1.First Time Set-up

Step 1:
Plug the USB Dongle Receiver into PC's USB-A Port.
The dongle LED light will Flash Red and Blue when plugged in.
After a successful connection, the dongle LED will turn blue.

Step 2:
Power ON/OFF
Press and hold the Power button for 3 seconds. The LED light will turn blue.

Make sure your headset is in USB MODE to use the USB-Receiver as the audio source.
The headset defaults to USB Mode every time it is powered on.

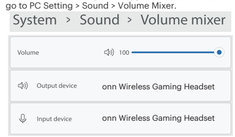

2.Connect Headset to the PC

If the headset doesn't automatically connect to your computer and play sound, please manually set the audio source.

1. Go to PC Settings, then select System

2. When the USB dongle is plugged into the Device, go to PC Setting > Sound > Volume Mixer.

3. Select both the Output Device and Input Device as "onn Wireless Gaming Headset."

3. Connect Headset to the PlayStation

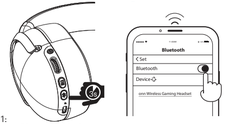

When the USB Dongle Receiver Plugged into the PlayStation Device,

Go to PlayStation Settings > Device > Select Audio Devices.

· Select both the Output Device and Input Device as "onn Wireless Gaming Headset."
· Set Output to Headset to ALL Audio
· Set Volume Control (Headset) level to maximum

Adjust your microphone levels by going to Settings > Sound > Microphone > Adjust Mic Level > Microphone Level

4. Bluetooth Set-up

Step 1:
Switch to Bluetooth Mode
Press and hold the Bluetooth Button for 3 seconds to Bluetooth Mode. The LED will alternatively flash blue and red.

Step 2:
Open Bluetooth setting on your device and select "onn. Wireless Gaming Headset" to get it connected.

After successful connection, you will hear "Bluetooth Connected" from headset

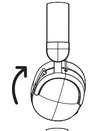

The same operation can beapplied to connect with Bluetooth-enabled devices such as PC/Mobile/Console

3 Press the Blue button to enter Bluetooth pairing mode.

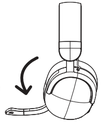

Operation

1. Microphone Mute

1. Microphone Up (Muted Mode):
· Microphone Status: Muted.

2. Microphone Down (Active Mode):
· Microphone Status: Active.

When answering a call, press the Bluetooth button and flip down the microphone to answer.

2. Select Different EQ Pre-Set

EQ-1:
Switch to Default Gaming EQ -Balanced Gaming SoundPress the Mode Button once you will hear the sound prompt "Standard Mode".

EQ-2:
Switch to Chat Mode EQ -Human Voice EnhancementPress the Mode Button once you will hear the sound prompt "Chat Mode".

EQ-3:
