

Letter of Declaration

We, Rollease Acmeda Inc, hereby declare that the Push PRO Remote control will be manufactured under different model numbers with two-color codes. All models are exactly same and identical in electrical, mechanical construction and material design with the following exceptions:

- Model Number on the product label
- Color Code (available in White and Black)
- The presence of the "AUTOMATE", "SMART HOME COLLECTION" and "THE SHADE STORE" marks on the front panel which appears on the following models: MT02-0101-067013 r2, MT02-0101-050013 r2, MT02-0101-067014 r2, MT02-0101-050014 r2, MT02-0101-067018 r2, MT02-0101-050018 r2.

We confirm that these variations do not affect the overall performance and functionality of the Push PRO Remote:

No	Model Number	Brand Name /Description	Trade Name	Colour	Labelling Information	Packaging / QSG Information	Distribution Chain	Photos	FCC IC ID
1	MT02-0101-067013 r2	AUTOMATE Push PRO Remote	Rollease Acmeda	White	Refer to: Page 2	Refer to: Page 3-5	Refer to: Page 6	Refer to: Attached Internal / External Photo files	FCC IC ID details are the same for all 6 models as per below: FCC ID: 2AGGZ003B9ACA60 IC: 21769-003B9ACA60
2	MT02-0101-050013 r2	AUTOMATE Push PRO Remote	Rollease Acmeda	Black					
3	MT02-0101-067014 r2	TSS Push PRO Remote	The Shade Store	White					
4	MT02-0101-050014 r2	TSS Push PRO Remote	The Shade Store	Black

WARNING: Important safety instructions to be read before installation and use.

Incorrect use can lead to serious injury and will void manufacturer's liability and warranty. It is important for all persons to follow the enclosed instructions.

- Before use, read, understand and follow the manual carefully. Do not use the equipment unless you are familiarly familiar with its proper use and maintenance.
- Do not expose to water, moisture, humid and damp environments or extreme temperatures.
- Persons (including children) with reduced physical, sensory or mental abilities, or persons with little or no knowledge, should not be allowed to use this product.
- Use of modification outside the scope of the instruction manual will void warranty.
- The equipment must be installed and used in a well-ventilated area.
- Qualified personnel must be authorized to perform the installation.
- For use with indicated shading devices.
- Frequently inspect for improper operation.
- Do not use if repair or adjustment is necessary.
- Keep clear of the blind when in operation.

WARNING: Important safety instructions to be read before installation and use.

 Installation and use.

Incorrect use can lead to serious injury and property damage. It is important for the manufacturer's liability and warranty. It is important for the safety of persons to follow the enclosed instructions.

- Before using the device, read the online instruction manual carefully to understand its proper use and maintenance.
- Do not expose to water, moisture, humid and damp environments or extreme temperatures.
- Persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, should be supervised or instructed by a person with knowledge of use of the product outside the scope of this instruction manual to avoid any injury.
- Use of modification outside the scope of this instruction manual will void warranty.
- Installation and programming to be performed by a suitably qualified installer.
- For use with motorized shading devices.
- Frequently inspect for proper operation.
- Do not use if repair or adjustment is necessary.
- Keep clear of the blind when in operation.

This device complies with part 1 of the CE mark.

Operation is subject to the following two conditions: (1) The device may not be used in such a way that causes interference with radio communications received; (2) The device must accept any interference that may arise from external radio transmitting devices. Change of modification to this unit not expressly approved by the manufacturer may void the user's authority to operate the equipment. This device contains lithium and/or nickel-cadmium (NiCd) batteries. This device contains lithium and/or nickel-cadmium (NiCd) batteries that comply with Innovation, Science and Economic Development Canada's (ISED) requirements for the safe handling, use, maintenance, and disposal of these devices. (1) The device may not cause interference. (2) The device must accept any interference, including the interference that may cause unintended operation of the device.

L'ensemble de cet appareil est conforme aux conditions suivantes: (1) L'utilisateur ne doit pas utiliser l'appareil d'une façon qui provoque des interférences avec les communications radio reçues; (2) L'appareil doit accepter toute interférence radio émise par des appareils de transmission externes. Toute modification non approuvée par le fabricant peut annuler l'autorité de l'utilisateur à utiliser l'appareil. Cet appareil contient des piles au lithium et/ou au nickel-cadmium (NiCd). Cet appareil contient des piles au lithium et/ou au nickel-cadmium (NiCd) qui sont conformes aux exigences d'Innovation, Science et Développement économique Canada (ISDE) relatives au traitement sûr de ces appareils. (1) L'appareil ne doit pas causer d'interférence. (2) L'appareil doit accepter toute interférence, y compris l'interférence qui peut entraîner un fonctionnement non prévu de l'appareil.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of FCC Part 15. This limits the radio frequency energy and, therefore, the radio interference that can be emitted from this equipment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If interference is experienced, it can be corrected by reorienting the antenna or by increasing the distance between the equipment and the receiver. If the antenna is reoriented or the distance increased, you may not be able to receive the signal properly. If this condition persists, you should consult the dealer or an experienced radio/TV technician for help.
