- Once you have activated Bluetooth on your phone, select the "BLUETOOTH" icon in the list of available Bluetooth devices.
- If required, enter the password "0000" to confirm & finalize pairing.
- Once paired successfully, information tone will be heard and the only Blue ICE is ON.
- The Bluetooth is now ready to be used.
- If pairing is unsuccessful, "reset" the device first and then go back following the above steps.
- Once you have paired with the Bluetooth phone a device, the Bluetooth phone will remember this device and will pair automatically when the device's Bluetooth is activated and in range. You do not need to re-pair any additional connected devices.
- The Bluetooth Headphones will attempt to auto-reconnect to the last device it was previously connected to. If you need to pair it with a new device, please follow the steps outlined above.
- Once the Bluetooth Headphones are paired with your device the music will transmit through the Bluetooth headphones. Please refer to your dealer's user manual for further information.

- | Position | Operation | Effect |
|------------------------|---|--|
| Forward call | Buying Call | Pay the Price to own the right to buy the stock at the Strike Price |
| Reverse financing call | Selling Call | Let the price be the Price to sell |
| Long call | Buying Call | After the price increases, short price for the Strike Price |
| Reverse future | Selling a call | A long price on the stock balance will increase the balance |
| Short call | Selling a call | A long price on the stock balance will decrease the balance |
| Profit on the market | Financially made and recorded in a ledger | Short price for the Strike Price price |
