

hello!

Welcome to iTOVi!

We're thrilled to be a part of your wellness journey! And we are so excited to introduce you to the powerful, personalized benefits of the iTOVi Scanner, App, and Scan Reports.

As always, our goal here at iTOVi is to provide our customers with the technological and education tools they need to reach their goals for both personal wellness and business success. And, starting today, YOU are one of the customers we are dedicated to helping.

We encourage you to reach out to our customer support team, available at support@itovi.com or 877-483-3748, with any questions, comments, or feedback you have, so we can enhance your iTOVi experience!

Thank you for your purchase and happy scanning!

Kurt Smith and Cy Tidwell
iTOVi Co-Founders

DESCRIPTION

Thousands of health-minded individuals use the iTOVi Scanner. The iTOVi Scanner uses galvanic skin response technology, providing customers with individualized information when choosing nutritional products, oils, and supplements.

HOW SUPPLIED

The iTOVi Scanner comes with:

- iTOVi Scanner
- User Guide
- Rechargeable Li-ion Battery

WARNINGS AND PRECAUTIONS:

- Use only a factory supplied wall pack power supply, charger. Use of another charger may result in electrical shock or equipment damage.
- iTOVi Scanner devices are not intended for use while attached to the wall-pack power-supply charger. Never attempt to operate the instrument while connected to the charger as electrical shock or damage to the scanner may occur.
- The iTOVi Scanner device is not waterproof. Keep the scanner dry. Do not immerse the iTOVi Scanner device or accessories in water.
- Scanner contains a rechargeable lithium-ion battery. Do not remove the battery.
- Discontinue use of any product if skin irritation develops.
- The iTOVi Scanner is a precision device and should be treated with care. Do not drop, bang or hit or cause other impacts to the scanner.

- Not recommended for use in extreme temperatures.
- Do not dispose of iTOVi Scanner device in a fire. The iTOVi Scanner device contains a lithium-ion battery.
- The iTOVi device does not contain any hazardous materials. For proper disposal instructions, consult your local waste management facility. Recycling should be used where available.
- Making any modifications or using any accessories not explicitly approved by iTOVi, LLC may void the warranty as well as reduce immunity to electromagnetic interference, or increase electromagnetic emissions, and result in improper operation.

FCC

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. **NOTE:** This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

CANADA

CAN ICES-3(A)/NMB-3(A)

This device complies with ISSED Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- 1. This device may not cause interference, and
- 2. This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d’ISDE Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes :

- 1. l’appareil ne doit pas produire de brouillage;
- 2. l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.
