## Attestation Letter

Date: February 2, 2016

To:  
Bay Area Compliance Laboratories Corp.  
1274 Anvilwood Avenue  
Sunnyvale, CA 94089

Dear Sir or Madam:

The RF chip MT7612E installed in our product, Nusoft Wireless Router (Model Number: NFW-560 ; FCC ID: 2AGVZNFW-560), supports 5GHz WiFi spectrums (Band 1, Band 2, Band 3, Band 4). For using in the United States, this chip will not support/enable the Band 2 and Band 3. These two spectrums have been shielded by us using the software.

The table below shows the 5G WiFi spectrums:

|        |              |
|--------|--------------|
| Band 1 | 5150-5250MHz |
| Band 2 | 5250-5350MHz |
| Band 3 | 5470-5725MHz |
| Band 4 | 5725-5850MHz |
