Declaration of Conformity

Product information

Brand name: PitPat
Product code: PP04
FCC ID: 2AGYZ-PP04
IC: 21094-PP04
Input: 2W

Directive EMC 2014/30/EU & RED 2014/53/EU

Pitpatpet Ltd hereby declares that PitPat PP04 conforms to the fundamental requirements and other relevant provisions of directives EMC 2014/30/EU and RED 2014/53/EU. Please visit pitpat.com/conformity for the full text of our declaration of conformity.

Radio Equipment Regulation 2017

Pitpatpet Ltd hereby declares that PitPat PP04 confirms to the fundamental requirements of the Radio Equipment Regulation 2017. Please visit pitpat.com/conformity for the full text of our declaration of conformity.

IC warning statement

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device. This equipment complies with IC RF radiation exposure limits set forth for an uncontrolled environment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Le dispositif a été évalué à satisfaire l'exigence générale de l'exposition aux RF.

FCC declaration of conformity

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF warning statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Dog GPS Tracker (PP04)

December 2021

Intro

This document contains the product information necessary to support the compliance testing of PitPat Dog GPS Tracker. It should be kept confidential to the fullest extent possible.

Technical Description

Product name: Dog GPS Tracker
Model number: PP04
Brand: PitPat
Company: Pitpatpet Ltd
5 Brooklands Avenue, Cambridge, CB2 8BB, UK

Power Input: 2W (wireless Qi receiver)

Radio: LTE-M only (no Bluetooth)
Location: GNSS

FCC ID: 2AGYZ-PP04
IC: 21094-PP04

The product is a Dog GPS Tracker. It measures the location of the dog using GPS and communicates this to an app using NB-IoT or LTE-M.

RF Exposure Information and Statement

The SAR limit of USA/Canada (FCC/IC) is 1.6 W/kg averaged over one gram of tissue. Device types: PP04 (FCC ID: 2AGYZ-PP04, IC: 21094-PP04) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use the body is 0.791W/kg. This device was tested for typical body-worn operations with the back of the handset kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided.

Le SAR limite pour les USA/Canada (FCC/IC) est de 1.6 W/kg moyen sur un seul gramme de tissu. La valeur maximale déclarée sous ce critère lors de la certification du produit pour l'utilisation du corps est de 0.791W/kg. Opérations typiques avec la partie arrière de la manœuvre gardée à 0mm du corps, afin de maintenir la conformité avec les exigences du FCC relatives à l'exposition RF, L'utilisation des accessoires qui maintiennent une distance de séparation de 0mm entre le corps de l'utilisateur et le dos de la main. L'utilisation des accessoires qui ne satisfont pas à ces exigences peut ne pas être conforme aux exigences du relatives à l'exposition à la RF. Et devrait être évité.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

Cet appareil a été testé pour un fonctionnement typique du corps sous pression, pour satisfaire aux exigences relatives à l'exposition RF, une distance minimale de séparation de 0mm doit être maintenue entre le corps de l'utilisateur et la poignée. Y compris les antennes, les bandes de fréquences et les satellites, Des accessoires similaires utilisés par cet appareil ne doivent pas contenir de composants métalliques. Seule la fourniture ou une antenne agréée.
