

XBOX ONE SETUP

XBOX ONE

Controller with 3.5mm port

1. Always turn on the headset before turning on the controller.
2. Connect one end of the Xbox One chat cable to the 3.5mm port on the headset and the other end to the 3.5mm port on the Controller.
3. On the Xbox One, go into **All settings > Kinect & devices > Devices & accessories** and choose the Xbox One Wireless Controller in use.
4. Select 'Volume' and set 'Headset volume' to maximum and 'Mic monitoring' to minimum. Make sure that 'Headset mic' is turned to 'On.'
5. Select 'Chat Mixer' and set 'Headset chat mixer' all the way to the right for 100% chat.
6. If it appears, set 'Headset chat mixer' all the way to the right for 100% chat.
7. On the Xbox One, go into **All settings > Display & sound**. Under 'Audio Output' select 'Optical audio' and choose 'Stereo uncompressed.'

PLAYSTATION 4 SETUP

PS4

1. Go into **Settings > Sound and Screen > Audio Output Settings > Primary Output Port** and select 'Digital Out (Optical)'
2. Make sure that only 'Linear PCM 44.1kHz' and 'Linear PCM 48kHz' are checked.
3. Go into **Settings > Audio Output Settings > Audio Format (Priority)** and select 'Linear PCM.'
4. Go into **Settings > Devices > Audio Devices** and set both the 'Input Device' and 'Output Device' to 'USB Headset (Lucid Sound LS30)'
5. Set the Output to Headphone to 'Chat Audio'
6. Set the 'Volume Control (Headphones)' to maximum

PLAYSTATION 3 SETUP

PS3

1. Go into **Settings > Sound Settings > Audio Output Settings > Optical Digital**.
2. Make sure that only 'Linear PCM 2 CH. 44.1kHz' and 'Linear PCM 2 CH. 48kHz' are checked.
3. Go into **Settings > Accessory Settings > Audio Device Settings** and set the 'Input Device' and 'Output Device' to 'Lucid Sound LS30'

XBOX 360 SETUP

XBOX 360

Using Stereo Headset Adapter

1. If the Xbox One Controller does not have a 3.5mm port, an Xbox One Stereo Headset adapter is required (not included).
2. Connect one end of the Xbox One chat cable to the 3.5mm port on the headset and the other end to the 3.5mm port on the Stereo Headset Adapter.
3. Adjust the game/chat balance on the Stereo Headset Adapter to 100% chat and increase the volume on the adapter to maximum.
4. On the Xbox One, go into **All settings > Display & sound**. Under 'Audio output' select 'Optical audio' and choose 'Stereo uncompressed.'

Lucid Sound, Inc. warrants this product to be free from defects in materials and workmanship for the warranty period. This non-transferable, 1 year limited warranty is only to you, the first end-user purchaser. If a defect covered by this warranty occurs AND you provide proof of purchase, Lucid Sound, Inc., at its option, will repair or replace the product at no charge (excluding shipping to Lucid Sound).

The Lucid Sound, Inc., 1 year limited warranty is available to North American and European customers. Your sole and exclusive remedy is repair or replacement of your Lucid Sound product. In no event shall Lucid Sound's liability exceed the original purchase price of the product. This warranty does not apply to: (a) normal wear and tear or abusive use; (b) industrial, professional or commercial use; (c) if the product has been tampered with or modified.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Status LED
Solid = ON/Connected
Slow Blink = Searching
Blink twice then pause = Pairing

Optical Input

CHARGING

When battery has less than 15% power remaining, unit beeps twice every 10 seconds.

Connect the small end (micro-USB) of the charging cable to the headset. Connect the other end to a USB port. The LED on the headset will pulse while charging and turn solid when charging is complete.

MICROPHONE

The LS30 includes an optional boom microphone. When this microphone is removed, an internal microphone is activated. To connect the boom Microphone, simply insert it into the port on the bottom of the headset.

CONNECTING TO CONSOLE

For: PS3, PS4, Xbox One, and Xbox 360

STEP 1.
Connect the wide end of the optical cable to the optical port on the rear of the Console. Early Xbox 360 Consoles may require an HDMI Audio Adapter (not included)

STEP 2.
Connect the thin end of the optical cable to the optical port on the side of the Base Station

STEP 3.
Plug the Base station into a USB port on the Console

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- . Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- . Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

FCC Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 0,5 centimeters between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The antennas used for this transmitter must be installed to provide a separation distance of at least 0,5 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
