Product Equality Declaration

We, Shanghai Sunmi Technology Co., Ltd.

. declare on our sole responsibility for the product of Model T5F2A

The differences between variant and original is as below:

Original Product Name: Portable Data Processing Terminal

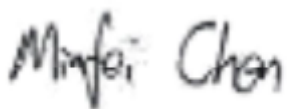

Original FCC ID: 2AH25T5F2AN

Variant Product Name: Wireless data POS System

Variant FCC ID:: 2AH25T5F2ALN

The difference lies in the fact that the hardware has been removed.. For the removed LTE Band12/13/17/25 66/71, the chip of the corresponding module remained unchanged. these frequency bands were eliminated by reducing the corresponding components. Except this, the others are all the same, and apart from the changed parts others do not affect wireless performance.
