

DECATHLON USA LLC

Request for Class II Permissive Change

FCC ID: 2AH2P-KITCOM

Date: 2022-07-26

Original certificated issued date:10/12/2018

TO: Federal Communication Commission

Please be notified that we, the undersigned, (DECATHLON USA LLC) declare that the reasons for this Class II permissive change are as below:

The manufacturer of power management circuit chip XC6209F332, other internal structure and PCB Layout are identical.

However the EMC levels degradation are demonstrated.

In addition, after precise measurement, the Minimum test separation distance from human head to EUT antenna is more than 20cm. The EUT meet the Exemption Limits for Routine Evaluation – RF exposure Evaluation, so no SAR evaluation is required for the EUT.

Thank you.

Sincerely.
